KUALA LUMPUR (Jan 29): Here is a brief recap of some business news and corporate announcements that made the headlines on Thursday:

Bursa Malaysia Bhd's profits (KL:BURSA)'s net profit declined 11.7% to RM60.83 million or 7.5 sen per sharein the fourth quarter ended Dec 31, 2025(4QFY2025), from RM68.9 million or 8.5 sen per share a year ago amid softer securities market trading environment and higher expenses.Revenue rose to RM190.87 million from RM185.91 million a year ago. It declared a single-tier final dividend of 14 sen per share, amounting to approximately RM113.3 million, payable on Feb 27, 2026. For the full year of FY2025, Bursa's net profit declined 19.3% to RM250.16 million from RM310.12 million, as revenue dropped to RM727.7 million from RM784.3 million. — *Bursa Malaysia 4Q profit down 12%, declares final dividend of 14 sen*

Its chief executive officer Datuk Fad'l Mohamed also unveiled Bursa Malaysia's headline key performance indicators (KPIs) for 2026. These include a new return on equity (ROE) target of between 27% and 30%, and non-trading revenue growth of more than 10% from financial year 2025 — up from a previous target of 5-7%. The local bourse is also aiming for total IPO market capitalisation of RM28 billion in 2026, while it has pledged to cut Scope 1 and 2 emissions by at least 25% from FY2022 levels, having already achieved a 22% reduction last year. — *Bursa Malaysia eyes stronger IPO pipeline, new thematic ETFs*

Separately, Fad'l said approvals for large initial public offerings (IPOs) with a free float level below the standard 25% are governed by clear regulatory parameters and have not raised systemic concerns with index provider MSCI Inc. Fad'l said concerns expressed by market participants about recent MSCI actions were specific to Indonesia and not indicative of broader regional issues. "From the information we have, there's no similar concern for it to apply to Malaysia," Fad'l said. — *Bursa Malaysia: Lower free float for large IPOs guided by clear rules; no MSCI concerns*

KLCCP Stapled Group (KL:KLCC) has declared a record-high dividend for the financial year ended Dec 31, 2025, as its annual net profit and revenue hit all-time highs. The group — comprising KLCC Property Holdings Bhd and KLCC Real Estate Investment Trust — declared a dividend of 19.1 sen per stapled security for the quarter, to be paid on Feb 27. This brought total dividends for the full financial year (FY2025) to 47 sen per stapled security, representing a 5.6% increase from a year earlier. The record payout comes after the group closed its FY2025 with a 55.32% surge in its 4QFY2025 net profit to RM669.3 million from RM430.91 million a year earlier. The spike was largely due to a 97.62% jump in fair value gains on investment properties to RM463.87 million. Quarterly revenue grew 7.38% to RM492.96 million from RM459.1 million, bolstered by stable retail performance at Suria KLCC and the retail podium of Menara 3 PETRONAS, alongside higher management services income from planned maintenance activities and increased car park collections. For the full FY2025, KLCCP Stapled's net profit rose 25.95% to RM1.28 billion from RM1.02 billion, while revenue edged up 1.69% to RM1.74 billion from RM1.71 billion. — *KLCCP Stapled declares record dividend as FY2025 earnings hit all-time high*

Sunway Real Estate Investment Trust (KL:SUNREIT) posted a marginal 0.36% fall in net property income (NPI) to RM164.96 million for 4QFY2025 compared with RM165.55 million a year earlier. Quarterly revenue edged up 3.1% to RM227.64 million for 4QFY2025 from RM220.85 million previously. The lower quarterly NPI despite the rise in revenue was partially due to a 12.6% increase in other property operating expenses to RM56.98 million from RM50.58 million. It announced a final income distribution per unit (DPU) of 4.82 sen, payable on Feb 27. This brings the total DPU for FY2025 to a record-high of 14.48 sen, up from 10 sen paid in the previous year. — *Sunway REIT declares record high DPU for FY2025 as net property income rises 15.5%*

Pavilion Real Estate Investment Trust (KL:PAVREIT) saw its net property income (NPI) rose 11.1% to RM149.82 million in the 4QFY2025, from RM134.86 million a year ago, fuelled by rental income from its newly acquired hotels. Besides rental income from Banyan Tree KL and Pavilion Hotel KL, acquired in June last year, NPI was also helped by higher contribution from Pavilion Bukit Jalil and marginally lower property operating expenses. Revenue was up 6.1% to RM232.09 million as compared to RM218.79 million previously. It proposed a final income distribution of 5.03 sen per unit, payable on Feb 27, bringing full-year distribution to 10 sen per unit. — *Pavilion REIT 4Q property income up 11% with new hotels, declares 5.03 sen DPU*

UUE Holdings Bhd (KL:UUE) slipped into the red for the first time since its listing two years ago, mainly due to a one-off employees' share option scheme (ESOS) expense of RM12.6 million. The underground utilities engineering group posted a net loss of RM6.17 million for the third quarter ended Nov 30, 2025 (3QFY2026), compared with a net profit of RM7.23 million a year earlier. Excluding the one-off ESOS expenses, UUE recorded an adjusted profit of RM8.5 million, down 9.6% from RM9.4 million in 3QFY2025. The decline was attributed to higher administrative expenses, losses from the engineering, procurement, construction and commissioning (EPCC) of solar photovoltaic systems segment, as well as lower gross profit margins from its Singapore operations. Revenue climbed 30.35% year-on-year (y-o-y) to RM60.06 million from RM46.07 million, driven mainly by stronger contributions from the underground utilities engineering solutions segment. — *UUE Holdings posts first quarterly loss since listing*

CTOS Digital Bhd (KL:CTOS) said its earnings surged 38% to RM44.57 million in the 4QFY2025, from RM32.4 million a year earlier, thanks largely to a one-off gain. The company booked a gain on disposal of investment in an associate totalling RM17.9 million during the quarter. Quarterly revenue rose 14.5% y-o-y to RM87.98 million. To drive revenue growth, CTOS Digital said it is accelerating investments in artificial intelligence and advanced analytics solutions. A fourth single-tier interim dividend of 0.86 sen per share was declared and payable on April 28. Total dividends for the year, however, fell to 2.7 sen per share from 3.25 sen per share declared in FY2024. — *CTOS Digital to step up investments in AI after 4Q profit surges on disposal gain*

Integrated logistics solutions provider Tasco Bhd's (KL:TASCO) net profit fell 29.01% to RM10.12 million for 3QFY2026, from RM14.25 million a year earlier amid a drop in revenue. Quarterly revenue declined 7.15% to RM226.06 million from RM243.45 million, dragged by lower contribution from its international business solution segment. — *Tasco's net profit falls 29% in 3Q on lower revenue*

Sentoria Group Bhd (KL:SNTORIA) said developer Masteron Sdn Bhd will take over its troubled 204-acre development in Morib, Selangor, after the group admitted it was unable to complete the project. Its subsidiary Sentoria Harta Sdn Bhd has inked a takeover agreement with Hartanah Masteron Sinar Suria Sdn Bhd, a unit of Masteron, based on a check with the Companies Commission Malaysia. The Morib project sits on land owned by Seriemas Development Sdn Bhd and dates back to a 2012 joint venture between Sentoria and Seriemas. Masteron will fork out RM5.25 million to take over the project; of which RM5 million will be paid directly to the creditors — two entities that aided in funding certain parts of the project previously — and RM250,000 will be paid to Sentoria Harta as "earnest payment", which is not refundable. — *Sentoria's stalled Morib project to be taken over by Masteron*

Econpile Holdings Bhd (KL:ECONPILE) has bagged a RM24 million sub-contract job for piling and sub-structure works from Al-Ambia Sdn Bhd to undertake earthwork, bored piling work, pile cap and reinforced concrete retaining wall for the proposed development of a single block of 18-storey free-cost apartments located in Gombak, Selangor. The project is expected to contribute positively to the group's revenue and earnings from the financial year ending June 30, 2026 onwards. — *Econpile secures RM24 mil piling job*

MCE Holdings Bhd (KL:MCEHLDG) has secured contracts to supply electronics and mechatronics components worth approximately RM37.9 million to national carmaker Proton. The contracts were awarded to subsidiaries Multi-Code Electronics Industries (M) Bhd and MCE Hengtuo Sdn Bhd, spanning 84 months, with production slated to begin in the first quarter of the financial year ending July 31, 2027. — *MCE Holdings clinches RM37.9m components supply contracts from Proton*
