## A. EXPLANATORY NOTES TO THE INTERIM FINANCIAL REPORT FOR THE QUARTER ENDED 29 FEBRUARY 2012

## A1. Basis of preparation

The Interim Financial Report of the Ancom Berhad ("Ancom" or "the Company") and its subsidiaries ("Group") is unaudited and has been prepared in accordance with the Financial Reporting Standard ("FRS") 134: Interim Financial Reporting and Rule 9.22(2) of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") for the Main Board ("Listing Requirements").

The Interim Financial Report of the Group should be read in conjunction with the Group's Audited Financial Statements for the financial year ended 31 May 2011. These explanatory notes attached to the Interim Financial Report provide an explanation of events and transactions that are significant for an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 May 2011.

The significant accounting policies and methods of computation adopted by the Group in this Report are consistent with those adopted in the most recent Audited Financial Statements for the year ended 31 May 2011 except for the adoption of the following new and revised FRSs, IC Interpretations and Amendments to FRSs which are applicable and relevant to the Group's operations:

|  | Effective for annual <br> periods beginning <br> on or after |
| :--- | ---: |
| FRS 1 First-time Adoption of Financial Reporting Standards | 1 July 2010 |

| IC Interpretation 4 Determining Whether An Arrangement contains a | 1 January 2011 |
| Lease | 1 January 2011 |
| IC Interpretation 18 Transfers of Assets from Customers | 1 January 2011 |

Except for the changes in accounting policies arising from the adoption of the revised FRS 3 and the amendments to FRS 127, as well as the new disclosures required under the Amendments to FRS 7, the directors expect that the adoption of the other standards and interpretations above will have no material impact on the financial statements in the period of initial application. The nature of the impending changes in accounting policy on adoption of the revised FRS 3 and the amendments to FRS 127 are summarised below.

The revised standards are effective for annual periods beginning on or after 1 July 2010. The revised FRS 3 introduces a number of changes in the accounting for business combinations occurring after 1 July 2010. These changes will impact the amount of goodwill recognised, the reported results in the period that an acquisition occurs, and future reported results. The Amendments to FRS 127 require that a change in the ownership interest of a subsidiary (without loss of control) is accounted for as an equity transaction. Therefore, such transactions will no longer give rise to goodwill, nor will they give rise to a gain or loss. Furthermore, the amended standard changes the accounting for losses incurred by the subsidiary as well as the loss of control of a subsidiary. Other consequential amendments have been made to FRS 107 Statement of Cash Flows, FRS 112 Income Taxes, FRS 121 The Effects of Changes in Foreign Exchange Rates, FRS 128 Investments in Associates and FRS 131 Interests in Joint Ventures. The changes from revised FRS 3 and Amendments to FRS 127 will affect future acquisitions or loss of control and transactions with minority interests.

Other than the above, the significant accounting policies adopted by the Group in this Report are consistent with those used in the Audited Financial Statements of the Group for the financial year ended 31 May 2010.

## A2. Audit Report of the Preceding Audited Financial Statements

The audit report for the Group's Audited Financial Statements for the financial year ended 31 May 2011 was not qualified.

A3. Seasonal or Cyclical Factors
The interim business operations of the Group were not materially affected by any seasonal or cyclical factors.

A4. Unusual Items Affecting the Assets, Liabilities, Equity, Net Income or Cash Flows

## B. ADDITIONAL INFORMATION PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA SECURITIES

## B1. Review of Group's Performance

The Group posted revenue of RM1.24 billion for the current financial period compared with RM1.04 billion in the corresponding period last year. Profit before taxation ("PBT") for the current financial period improved to RM11.8 million compared to a loss before taxation of RM5.6 million in the same period last year. Overall, the Group posted higher revenue across all major business segments. The Agricultural and Industrial Chemical Division remained the largest business segment. The division continue to post strong revenue growth in the current financial period supported by higher exports. In addition, lower operating costs in the Media Division have also contributed to the favourable Group's results.

For the financial quarter ended 29 February 2012, the Group posted higher revenue of RM415.6 million compared with RM373.2 million a year ago. However, PBT fell to RM1.1 million in the current financial quarter compared with RM2.9 million in the same corresponding quarter last year.

## Agricultural and Industrial Chemicals

The division posted revenue of RM346.1 million for the current financial quarter compared with RM292.3 million recorded in the corresponding quarter last year. Higher revenue is attributable to stronger sales of industrial chemicals products in Singapore and Indonesia. However, due to the European economic crisis coupled with slower growth in China, many of our competitors have started to focus on the Southeast Asian markets. This intensified the competitions in both our domestic and regional markets such as Singapore, Indonesia and Vietnam. Consequently, our operating margins have been eroded. The segmental profit of the division decreased from RM14.7 million in the corresponding quarter last year to RM9.5 million in the current quarter.

## Logistics

The Logistics Division posted higher revenue of RM14.0 million in the current financial quarter compared with RM13.3 million in the corresponding quarter last year. Higher revenue was primarily due to the more robust sale from its tank farm business.

Segmental profit for the current financial quarter improved to RM1.7 million from a segmental loss of RM0.7 million in the corresponding quarter last year. The segmental loss in the previous financial year was mainly due to the corporate restructuring costs of the division.

## Information Technology

The division continued to face intense competition in the current financial quarter. Both revenue and operating profits declined as the division is unable to maintain its order intake. Revenue for the financial quarter fell to RM5.3 million from RM7.7 million a year ago while segmental loss increased to RM0.3 million from RM0.1 million last year.

## Media

The revenue of the Media Division for the current financial quarter is marginally lower at RM21.1 million compared to RM21.8 million in the same quarter last year. However, the division posted a segmental profit of RM2.0 million against segmental loss of RM0.1

```

million last year. Continuing efforts placed in both costs management as well as revenue growth are bearing positive results in the division.

## Polymer

The Polymer Division achieved revenue of RM29.6 million for the current financial quarter, which is lower than RM33.3 million reported in the corresponding quarter last year. This is due to lower FCF (film and coated fabrics) sales in the domestic market resulted from the influx of imported goods sold at very low prices. For the current financial quarter, the Division reported higher segmental profit of RM3.8 million compared with RMI. 5 million in the same quarter last year. This increase is attributed to better margins from the improved efficiency of the division manufacturing plant in Indonesia.

## Investment holding

Investment holding division is primarily a cost centre as its revenue is mostly derived from dividend income from subsidiaries. During the financial quarter under review, there is a general increase in the operational costs and overheads.

B2. Material Change in the Results for the Current Quarter as Compared with the Immediate Preceding Quarter

During the quarter under review, the Group revenue decreased marginally to RM415.6 million from RM439.8 million in the immediate preceding quarter. PBT decreased to RM1.1 million from RM3.7 million in the immediate preceding quarter.

The decrease in revenue for the current financial quarter is mainly due to lower demand for our Industrial Chemical products because of the year end and Chinese New Year festivities.

B3. Prospects
Based on the improved performance of the Group compared to the previous financial year, the Directors expect, barring any unforeseen circumstances, the performance of the Group shall remain satisfactory for the remaining of the financial year.

B4. Variance from Profit Forecasts and Profit Guarantees
Not applicable as the Company did not provide any profit forecast and profit guarantee in respect of the current financial quarter.
