ECONOMIC OVERVIEW

Real gross domestic product (GDP) of Malaysia improved from 5.9% in 2006 to 6.3% in 2007 amidst a weaker external environment. Domestically, strong private consumption and investment activities coupled with an increase in public sector spending were main factors driving the economy in 2007.

On a sectoral basis, Bank Negara reported strong growth in the services, construction and mining & quarrying sectors whilst substantially reduced growth was registered in the agricultural and manufacturing sectors. The construction sector had made a turnaround from -0.5% to 4.6% after 3 years in the negative territory with main activities deriving from the civil engineering sub-sector due to the implementation of the Ninth Malaysian Plan (9MP), oil & gas industry and the non-residential and residential sub-sectors. On the contrary, growth in the manufacturing sector was reduced significantly from 7.1% (2006) to 3.1% (2007); attributed mainly to a weaker external demand from the slowdown in the production and exports of electronics and electrical products particularly in the first half of 2007.

Although the local Consumer Price Index (CPI) registered a lower increase; 2% in 2007 as compared to 3.6% increase in 2006, global oil price continued its hike whilst the Ringgit continued to move up against major and regional currencies during the year.

2007 GROUP REVIEW

The year 2007 was filled with many challenges. Internally, the Group underwent a major restructuring exercise in 2007 to rationalize its resources, streamline its businesses and undergo a corporate exercise to strengthen its overall financial position. Whilst Lighting, Kitchen Cabinetry and Point of Sales ("POS") continue to be the core businesses of the Group, various measures to help turnaround the Group were introduced and implemented vigorously in 2007. Some of these measures are still on-going which the Group believes will continue to improve the Group's overall financial position going forward.

In the midst of restructuring the Group, external factors also became demanding. Soaring oil prices coupled with the strong demand for resources by China and India globally during the year resulted in price increases of major raw materials. In addition, the strengthening of the Ringgit against its major and regional currencies had also made Malaysian products more expensive in the export markets. Amidst such challenges, Group sales suffered a decline from RM53 million in 2006 to RM35 million in 2007. Although lower sales in 2007 were recorded than its previous corresponding year, the Group was also able to reduce its loss substantially from RM40 million in 2006 to RM9.9 million in 2007 as various cost rationalization and reduction initiatives yielded positive results.

Whilst overall sales in the POS division generally remained unchanged in 2007, overseas POS sales improved on a year to year basis. Operations in the division were further streamlined to handle more focused projects and to better manage resources. Such measures were necessarily implemented to achieve operational and sales' objectives especially in view of the on-going tightening of rules and advertising budget in certain POS quarters.

Although domestic lighting sales registered a modest improvement in 2007 compared to its previous corresponding year; attributed mainly to quicker roll out of the outstanding projects under the previous Eight Malaysian Plan ("8MP"), export lighting had encountered resource issues and competitive lighting exports from foreign countries. As a result, overall sales in the lighting division had dipped due to the challenging environment. With various initiatives and counter measures planned and implemented, the Group believes that this division will be able to improve its prospects and drive overall revenue.

In 2007, the Group started its kitchen cabinetry projects primarily on landed property projects in Kuala Lumpur and Penang. Although sales were lower in 2007, retail sales related to previous and on-going projects; particularly non-wood based kitchen cabinetry, were encouraging. With the required resources in place, the Group believes that FORTE will be able to position itself meaningfully within the premium kitchen cabinetry market to capitalize on opportunities in the premium property market; both projects and retail in the coming years.

2008 PROSPECTS

Fear of a U.S. recession sparks concern of a global slowdown as we moved into 2008. Global growth is expected to moderate to 3.7% in 2008 as compared to 4.7% in 2007 whilst global inflation is expected to be elevated as commodities and food prices are under pressure to increase in 2008. It is believed that during such challenging times, uncertainty will surround most economies although growth momentum in Asia and emerging economies are still expected to be in the positive territory. Domestically, it was reported by Bank Negara that Malaysia's resilience attributed to its robust domestic demand, diversified export markets and being a commodity producer, amongst others, will help to mitigate Malaysia's economy from the effects of the global slowdown.

Going forward, the Group will implement the necessary initiatives and programs prudently to improve its marketing, operational and financial positions with the primary objective to turnaround the Group as soon as possible. Such implementations may include but without limitation to engaging in effective sales and marketing initiatives, product innovation, human resource management and effective financial planning.

APPRECIATION & ACKNOWLEDGMENT

Towards the end of 2007, the Board of Directors bid farewell to our deputy executive Chairman and fellow director; Mr. Chong Kon You @ Chong Kwan Yew and Mr. Gan Leng Swee, who had resigned on 1 January 2008 and 31 December 2007 respectively. On behalf of the Board of Directors, I would like to take this opportunity to express our appreciation to Mr. Chong and Mr. Gan for their contribution through the years. On a different note, the Board of Directors wishes to welcome our new director; Professor Datuk Dr. Nik Mohd Zain bin Nik Yusof, who was appointed on 21 April 2008.

Last year was certainly a challenging year for the Group. On behalf of the Board of Directors, I would like to take this opportunity to express our sincere gratitude and appreciation to our valued customers, business associates, bankers, suppliers, shareholders and regulatory authorities.

To the management and staff, your efforts are most needed to drive through these demanding times to achieve a turnaround for the Group. For this and beyond, I wish to thank all of you for your commitments, loyalty and perseverance and hope we can all overcome such challenges together in the shortest of time.

KAMIL AHMAD MERICAN

Chairman June 2007

CORPORATE GOVERNANCE

The Board of Directors of Fututech Berhad is committed to maintaining good corporate governance and recognises that it is a continual process, which requires re-assessment and refinement of management practices and systems.

The Board supports the principles and best practices recommended by the Malaysian Code on Corporate Governance ("Code"). This Statement sets out the practices adopted by the Board in compliance with the Code for the financial year ended 31 December 2007.

BOARD OF DIRECTORS

i) Composition of the Board of Directors

The Board has five (5) members comprising one (1) Executive Director, two (2) Non-Independent Non-Executive Directors and two (2) Independent Non-Executive Directors. The Company complied with the provision of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") in regards to the composition of the Board of Directors. Profile of each Director is presented on pages 3 to 5 of this Annual Report.

The Board has the overall responsibilities as the steward of the Company, guiding the Company towards achieving its short-term and long-term goals by setting various strategies for growth and development whilst providing direction and advice to the Management in achieving the Company's objectives. The Chairman is primarily responsible for matters pertaining to the strategies and policies of the Group whilst the Acting Chief Executive Officer oversees the operations of the Group and the implementation of the Board's directives and policies.

The Directors each bring objective and independent judgment to the Board and there is no domination by a group or an individual in the process of decision making by the Board. In addition thereto, the independent directors also provide the Board with independent guidance and unbiased advice based on their experience specific to the industry as well as the general commercial environment. The Board also ensures a high degree of transparency and accountability towards all the shareholders.

ii) Meetings and Supply of Information

The Board of Directors meet on a quarterly basis with additional meetings convened when deemed necessary.

Issues in relation to, amongst others, financial performance, strategies, resources and standards of conduct of the Group are deliberated and examined before decisions are made. To assist the Directors in reviewing and considering the issues to be discussed at the meeting, they are provided with reports relevant to the agenda of the meeting prior to each board meeting. They are also given access to all information of the Group and the advice of the Company Secretaries and/or other independent professional advisors, where necessary, to enable them to discharge their duties effectively and diligently.

There were four (4) meetings of the Board of Directors held during the year 2007.

Attendance of each Director at the meetings held during the financial year ended 31 December 2007 is as follows:-

Name of Directors	Designation	Number of Meetings Attended
Encik Kamil Ahmad Merican	Non-Independent	2/3
(Appointed w.e.f. 22 May 2007)	Non-Executive Chairman	
Mr. Chong Kon You @ Chong Kwan Yew (Resigned w.e.f. 1 January 2008)	Deputy Executive Chairman	3/4

iii) Committees

There are three (3) committees of the Board, namely Audit Committee, Nominating Committee and Remuneration Committee, to assist the Board in discharging its duties and responsibilities within clearly defined terms of reference.

The Board delegated to each committee specific authority to consider and approve specific matters in accordance with their respective terms of reference. Each committee will report to the Board with its decisions and/or recommendation. The ultimate responsibility for final decision on all matters however, rests with the Board.

iv) Directors' Training

All the Directors of the Company have attended and successfully completed the Mandatory Accreditation Programme prescribed by Bursa Securities. During the financial year, the Directors have attended continuous education programs to keep abreast with the relevant changes and development in the market place and with new statutory and regulatory requirements. Seminars and courses attended by the Directors are inter-alia on areas relating to corporate governance and leadership skills.

The Company will continuously arrange for further training for the Directors as part of their obligation to update and enhance their skills and knowledge which are important for their carrying out an effective role as Directors, particularly on corporate governance and the best practice set out in the Code. From time to time, the Board also receives updates and briefings, particularly on regulatory and legal developments relevant to the Company's business.

v) Appointment and Retirement of Directors

The present Nominating Committee ("NC") of the Board comprises three (3) members, all being non-executive directors whilst two (2) of whom are independent. The NC is entrusted by the Board to review and evaluate all new nominations for directors. It should be noted that acceptance and approval of the appointment to the Board remained the responsibility of the Board as a whole.

The Articles of Association of the Company requires a director appointed during a financial year to retire at the following annual general meeting. One-third of the directors for the time being are obliged to retire at every annual general meeting of the Company. In addition, all directors are bound to retire at an annual general meeting of the Company at least once every three years. Directors over the age of seventy are required to retire annually. All the retiring directors shall be eligible for re-election.

No annual review of the Board was performed by the NC during the financial year as the Board is satisfied that its current composition fairly reflects the interest of minority shareholders of the Company and represents the needed mix of skills and experience in discharging the Board's duties and responsibilities.

vi) Directors' Remuneration

The responsibilities to assess and to recommend to the Board the remuneration package of the executive directors are vested with the Remuneration Committee.

The Board as a whole recommends the remuneration of the non-executive directors in the form of directors' fees, which is subject to shareholders' approval at annual general meeting. No director will participate in the deliberation and decision in respect of his/her own remuneration.

The aggregate remuneration of the directors for the financial year ended 31 December 2007 categorised into the appropriate components and analysed into bands of RM50,000 is as below:-

- review the procedures for identification of related party transactions for compliance with the Listing Requirements
 of Bursa Securities and the appropriateness of such transaction, if any, before recommending to the Board for
 approval.

SUMMARY OF ACTIVITIES OF THE INTERNAL AUDIT FUNCTION

The Group's internal audit function is outsourced to external consultants. The outsourced internal auditors assist the Board and the Audit Committee in providing independent assessment of the adequacy, efficiency and effectiveness of the Group's internal control systems. The internal auditors report directly to the Audit Committee.

During the financial year under review, the internal audit function was involved in the review of the Group's management reporting process to improve the efficiency and timeliness of presentation of operating units' financial performance. This include reviewing the adequacy of the existing accounting software to cater to the additional financial information required by Management, and the collection and collation of information from the production process for assessing the periodic financial performance of the operating units.

The results of the review were reported to the Audit Committee. Management is in the process of implementing the action plans for the findings of the internal auditors.

statement on

INTERNAL CONTROL

The Board of Directors recognises the importance of maintaining a sound system of internal control and risk management to safeguard shareholders' investment and the Group's assets. The Board affirms its overall responsibility for the Group's system of internal control, which includes having a process in place to continuously review the adequacy and integrity of such a system.

However, it should be noted that due to inherent limitations in any system of internal control, such systems put into effect by Management can only manage rather than eliminate all risk of failure to achieve the Group's business objectives. Therefore, the system can only provide reasonable but not absolute assurance against material errors, misstatement, loss, contingencies, fraud or any irregularities.

The Board reviews the effectiveness of the Group's internal control system through feedback mainly from the Audit Committee. The Audit Committee in turn seeks assurance on the adequacy and integrity of the internal control system through independent reviews conducted by the internal audit function, external auditors and the Management.

RISK MANAGEMENT FRAMEWORK

Risk Management is regarded by the Board to be an integral part of the business operations. The Board maintains an on-going commitment to enhance the Group's control environment and processes. The key risks relating to the Group's operations and strategic and business plans are addressed at Management's periodic meetings. Significant risks identified are brought to the attention of the Board at their scheduled meetings.

The abovementioned practices by Management serves as the on-going process used to identify, evaluate and managed significant risks.

INTERNAL AUDIT FUNCTION

The Group's internal audit function is outsourced to external consultants. The outsourced internal auditors assist the Board and the Audit Committee in providing independent assessment of the adequacy, efficiency and effectiveness of the Group's internal control systems. They report directly to the Audit Committee.

OTHER KEY ELEMENTS OF INTERNAL CONTROLS

The other key elements of the Group's internal control systems are described below:

- Standard Operating Procedures, which set out the policies, procedures and practices to be complied in accordance to the ISO Standards, are in place for key operating units;
- regular internal quality inspection to monitor compliance of the ISO requirements by the operating units;
- clearly defined and structured lines of reporting and responsibilities within the Group including segregation of duties, appropriate authority limits, review and approval procedures in order to enhance the internal control system of the Group's various operations;
- comprehensive guidelines on the employment and retention of employees are in place, to ensure that the Group has a team of employees who are well trained and equipped with all the necessary knowledge, skills and abilities to carry out their responsibility effectively;
- budgeting process where operating companies in the Group prepare budgets for the coming year, which are considered and reviewed by the Board;
- periodic reporting on operations and financial matters from foreign subsidiaries to monitor their performance and results;
- weekly management meetings to discuss the Group's operations and performance, including the regular monitoring of results against budget, with significant variances explained and management action taken, where necessary; and
- regular factory visits by members of the senior management team and executive directors.

The Board is committed to ensuring that the Group's system of internal controls must continuously evolve to meet the changing business environment. Therefore, reviews of controls procedures will be continuously carried out to ensure the ongoing adequacy and effectiveness of the Group's system of internal controls.

OTHER STATUTORY INFORMATION

- (a) Before the income statements and the balance sheets of the Group and of the Company were made out, the directors took reasonable steps:
 - to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of
 provision for doubtful debts and satisfied themselves that all known bad debts had been written off and that
 adequate provision had been made for doubtful debts; and
 - (ii) to ensure that any current assets which were unlikely to realise their value as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.
- (b) At the date of this report, the directors are not aware of any circumstances which would render:
 - (i) the amount written off for bad debts or the amount of the provision for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; and
 - (ii) the values attributed to current assets in the financial statements of the Group and of the Company misleading.
- (c) At the date of this report, the directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (d) At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.
- (e) As at the date of this report, there does not exist:
 - (i) any charge on the assets of the Group and of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or
 - (ii) any contingent liability of the Group or of the Company which has arisen since the end of the financial year.
- (f) In the opinion of the directors:
 - (i) no contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group and of the Company to meet their obligations when they fall due; and
 - (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made.

Report of the Auditors

to the Members of Fututech Berhad

(Incorporated in Malaysia)

We have audited the financial statements set out on pages 28 to 68. These financial statements are the responsibility of the Company's directors.

It is our responsibility to form an independent opinion, based on our audit, on the financial statements and to report our opinion to you, as a body, in accordance with Section 174 of the Companies Act, 1965 and for no other purpose. We do not assume responsibility to any other person for the content of this report.

We have conducted our audit in accordance with applicable Approved Standards on Auditing in Malaysia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the directors, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion:

- (a) the financial statements have been properly drawn up in accordance with the provisions of the Companies Act, 1965 and applicable Financial Reporting Standards in Malaysia so as to give a true and fair view of:
 - (i) the financial position of the Group and of the Company as at 31 December 2007 and of the results and the cash flows of the Group and of the Company for the year then ended; and
 - (ii) the matters required by Section 169 of the Companies Act, 1965 to be dealt with in the financial statements; and
- (b) the accounting and other records and the registers required by the Act to be kept by the Company and by its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.

We have considered the financial statements and the auditors' reports thereon of the subsidiaries of which we have not acted as auditors, as indicated in Note 11 to the financial statements, being financial statements that have been included in the consolidated financial statements.

We are satisfied that the financial statements of the subsidiaries that have been consolidated with the financial statements of the Company are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements and we have received satisfactory information and explanations required by us for those purposes.

The auditors' reports on the financial statements of the subsidiaries were not subject to any qualification material to the consolidated financial statements and did not include any comment required to be made under Section 174 (3) of the Act.

Notes to the Financial Statements

31 December 2007 (cont'd)

1. CORPORATE INFORMATION

The principal activities of the Company are investment holding and provision of management services.

The principal activities of the subsidiaries are described in Note 11. There have been no significant changes in the nature of these activities during the year.

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Second Board of the Bursa Malaysia Securities Berhad. The principal place of business of the Company is located at No. 3, First Floor, Jalan Puchong, Batu 12 1/2, 47100 Puchong, Selangor Darul Ehsan.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors on 22 April 2008.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Accounting

The financial statements comply with the provisions of the Companies Act, 1965 and applicable Financial Reporting Standards in Malaysia. At the beginning of the current financial year, the Company has adopted new and revised Financial Reporting Standards ("FRSs") which are mandatory for financial periods beginning on or after 1 January 2007 as described fully in Note 2.3.

The financial statements of the Company have been prepared on a historical basis and presented in Ringgit Malaysia (RM).

2.2 Summary of Significant Accounting Policies

(a) Subsidiaries and Basis of Consolidation

(i) Subsidiaries

Subsidiaries are entities over which the Group has the ability to control the financial and operating policies so as to obtain benefits from their activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group has such power over another entity.

In the Company's separate financial statements, investments in subsidiaries are stated at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

(ii) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the balance sheet date. The financial statements of the subsidiaries are prepared for the same reporting date as the Company.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. In preparing the consolidated financial statements, intragroup balances, transactions and unrealised gains or losses are eliminated in full. Uniform accounting policies are adopted in the consolidated financial statements for like transactions and events in similar circumstances.

Acquisitions of subsidiaries are accounted for using the purchase method. The purchase method of accounting involves allocating the cost of the acquisition to the fair value of the assets acquired and liabilities and contingent liabilities assumed at the date of acquisition. The cost of an acquisition is measured as the aggregate of the fair values, at the date of exchange, of the assets given, liabilities incurred or assumed, and equity instruments issued, plus any costs directly attributable to the acquisition.

Any excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities represents goodwill. Any excess of the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognised immediately in profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES cont'd

2.2 Summary of Significant Accounting Policies cont'd

(a) Subsidiaries and Basis of Consolidation cont'd

(ii) Basis of Consolidation cont'd

Minority interests represent the portion of profit or loss and net assets in subsidiaries not held by the Group. It is measured at the minorities' share of the fair value of the subsidiaries' identifiable assets and liabilities at the acquisition date and the minorities' share of changes in the subsidiaries' equity since then.

(b) Intangible Assets

(i) Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. Following the initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised but instead, it is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

(ii) Other Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised on a straight-line basis over the estimated economic useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each balance sheet date.

Intangible assets with indefinite useful lives are not amortised but tested for impairment annually or more frequently if the events or changes in circumstances indicate that the carrying value may be impaired either individually or at the cash-generating unit level. The useful life of an intangible asset with an indefinite life is also reviewed annually to determine whether the useful life assessment continues to be supportable.

Other intangible assets represent licence fees and development expenditure which are stated at cost less accumulated amortisation and impairment.

- (i) Licence fees incurred for rights to manufacture, assemble, market or distribute certain licensed products will be amortised upon the subsidiaries commencing the manufacture of the said licensed products over the licence period on a straight line basis.
- (ii) Development expenditure represents expenses incurred in the development of new products prior to the commencement of commercial production. The said expenditure will be amortised over a period in which benefits are expected to be derived, commencing in the year in which the related revenue is first recognised on a straight-line basis.

(c) Property, Plant and Equipment and Depreciation

All items of property, plant and equipment are initially recorded at cost. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

2. SIGNIFICANT ACCOUNTING POLICIES cont'd

2.2 Summary of Significant Accounting Policies cont'd

(c) Property, Plant and Equipment and Depreciation cont'd

Subsequent to recognition, property, plant and equipment except for freehold land are stated at cost less accumulated depreciation and any accumulated impairment losses.

Freehold land has an unlimited useful life and is therefore not depreciated. Depreciation of other property, plant and equipment is provided on a straight-line basis to write off the cost of each asset to their residual value over the estimated useful life at the following annual rates:

Building	2% - 3%
Building structure	10%
Plant and machinery	7.5% - 10%
Office equipment, furniture, fittings, motor vehicles,	
and renovations	10% - 20%

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

Interest incurred on borrowings relating to the construction of assets is capitalised until the assets are ready for their intended use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any and the net carrying amount is recognised in profit or loss.

(d) Inventories

Inventories are stated at lower of cost and net realisable value (determined on the weighted average basis). Cost of raw materials consists of the original purchase price plus incidental cost incurred in bringing the inventories to their present location. For cost of finished goods and work-in-progress, cost comprise raw materials, direct labour, other direct costs and appropriate proportions of production overheads.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(e) Leases and Hire Purchase

A lease is recognised as a finance lease if it transfers substantially to the Group all the risks and rewards incident to ownership. Leases of land and buildings are classified as operating or finance leases in the same way as leases of other assets and the land and building elements of a lease of land and buildings are considered separately for the purposes of lease classification. All leases that do not transfer substantially all the risks and rewards are classified as operating leases.

(i) Finance lease

Assets acquired by way of hire purchase or finance leases are stated at an amount equal to the lower of their fair values and the present value of the minimum lease payments at the inception of the leases, less accumulated depreciation and impairment losses. The corresponding liability is included in the balance sheet as borrowings. In calculating the present value of the minimum lease payments, the discount factor used is the interest rate implicit in the lease, when it is practicable to determine; otherwise, the Company's incremental borrowing rate is used. Any initial direct costs are also added to the carrying amount of such assets.

31 December 2007 (cont'd)

2. SIGNIFICANT ACCOUNTING POLICIES cont'd

2.2 Summary of Significant Accounting Policies cont'd

(e) Leases and Hire Purchase cont'd

(i) Finance lease cont'd

Lease payments are apportioned between the finance costs and the reduction of the outstanding liability. Finance costs, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are recognised in the profit or loss over the term of the relevant lease so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

The depreciation policy for leased assets is in accordance with that for depreciable property, plant and equipment as described in Note 2.2 (c).

(ii) Operating lease

Operating lease payments are recognised as an expense on a straight-line basis over the term of the relevant lease. The aggregate benefit of incentives provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight-line basis.

In the case of a lease of land and buildings, the minimum lease payments or the up-front payments made are allocated, whenever necessary, between the land and the building elements in proportion to the relative fair values for leasehold interests in the land element and building element of the lease at the inception of the lease. The up-front payment represents prepaid lease payments and are amortised on a straight-line basis over the lease term.

(f) Provision

Provisions are recognised when the Group has a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as finance costs.

(g) Income Tax

Income tax on the profit or loss for the year comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted at the balance sheet date.

Deferred tax is provided for, using the liability method. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. Deferred tax is not recognised if the temporary difference arises from goodwill or negative goodwill or from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is recognised as income or an expense and included in the profit or loss for the period, except when it arises from a transaction which is recognised directly in equity, in which case the deferred tax is also recognised directly in equity, or when it arises from a business combination that is an acquisition, in which case the deferred tax is included in the resulting goodwill or the amount of any excess of the acquirer's interest in the net fair value of the acquirer's identifiable assets, liabilities and contingent liabilities over the cost of the combination.

2. SIGNIFICANT ACCOUNTING POLICIES cont'd

2.2 Summary of Significant Accounting Policies cont'd

(h) Employee Benefits

(i) Short Term Benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Defined Contribution Plans

As required by law, companies in Malaysia make contributions to the Employees Provident Fund ("EPF"). Some of the Group's foreign subsidiaries make contributions to their respective countries' statutory pension schemes. Such contributions are recognised as an expense in the income statement as incurred.

(iii) Termination Benefits

The Group pays termination benefits in cases of termination of employment. Termination benefits are recognised as a liability and expense when it is without realistic possibility of withdrawal.

(i) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

(i) Sale of Goods

Revenue is recognised net of sales taxes and upon transfer of significant risks and rewards of ownership to the buyer. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

(ii) Interest Income

Interest income is recognised on an accrual basis using the effective interest method.

(iii) Dividend Income

Dividend income is recognised when the right to receive payment is established.

(i) Foreign Currencies

(i) Functional and Presentation Currency

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia (RM), which is also the Company's functional currency.

(ii) Foreign Currency Transaction

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded in the functional currencies using the exchange rates prevailing at the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are translated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.

31 December 2007 (cont'd)

2. SIGNIFICANT ACCOUNTING POLICIES cont'd

2.2 Summary of Significant Accounting Policies cont'd

(j) Foreign Currencies cont'd

(ii) Foreign Currency Transaction cont'd

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are included in profit or loss for the period except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operation. Exchange differences arising on monetary items that form part of the Group's net investment in foreign operation, where that monetary item is denominated in either the functional currency of the reporting entity or the foreign operation, are initially taken directly to the foreign currency translation reserve within equity until the disposal of the foreign operations, at which time they are recognised in profit or loss.

Exchange differences arising on monetary items that form part of the Group's net investment in foreign operation, where that monetary item is denominated in a currency other than the functional currency of either the reporting entity or the foreign operation, are recognised in profit or loss for the period. Exchange differences arising on monetary items that form part of the Company's net investment in foreign operation, regardless of the currency of the monetary item, are recognised in profit or loss in the Company's financial statement or the individual financial statements of the foreign operation, as appropriate.

Exchange differences arising on the translation of non-monetary items carried at fair value are included in profit or loss for the period except for the differences arising on the translation of non-monetary items in respect of which gains and losses are recognised directly in equity. Exchange differences arising from such non-monetary items are also recognised directly in equity.

(iii) Foreign Operations

The results and financial position of foreign operations that have a functional currency different from the presentation currency (RM) of the consolidated financial statements are translated into RM as follows:

- Assets and liabilities for each balance sheet presented are translated at the closing rate prevailing at the balance sheet date;
- Income and expenses for each income statement are translated at average exchange rates for the year, which approximates the exchange rates at the dates of the transactions; and
- All resulting exchange differences are taken to the foreign currency translation reserve within equity.

Goodwill and fair value adjustments arising on the acquisition of foreign operations on or after 1 January 2006 are treated as assets and liabilities of the foreign operations and are recorded in the functional currency of the foreign operations and translated at the closing rate at the balance sheet date. Goodwill and fair value adjustments which arose on the acquisition of foreign subsidiaries before 1 January 2006 are deemed to be assets and liabilities of the parent company and are recorded in RM at the rates prevailing at the date of acquisition.

(k) Impairment of Assets

The carrying amounts of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated to determine the amount of impairment loss.

For goodwill, intangible assets that have an indefinite useful life and intangible assets that are not yet available for use, the recoverable amount is estimated at each balance sheet date or more frequently when indicators of impairment are identified.

2. SIGNIFICANT ACCOUNTING POLICIES cont'd

2.2 Summary of Significant Accounting Policies cont'd

(k) Impairment of Assets cont'd

For the purpose of impairment testing of these assets, recoverable amount is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs to. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's CGUs, or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or group of units.

An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or group of units on a pro-rata basis.

An impairment loss is recognised in profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the impairment loss is accounted for as a revaluation decrease to the extent that the impairment loss does not exceed the amount held in the asset revaluation reserve for the same asset.

Impairment loss on goodwill is not reversed in a subsequent period. An impairment loss for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss for an asset other than goodwill is recognised in profit or loss, unless the asset is carried at revalued amount, in which case, such reversal is treated as a revaluation increase.

(I) Financial Instruments

Financial instruments are recognised in the balance sheet when the Group has become a party to the contractual provisions of the instrument.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends and gains and losses relating to a financial instrument classified as a liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are recognised directly to equity. Financial instruments are offset when the Group has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

(i) Cash and Cash Equivalents

For the purposes of the cash flow statements, cash and cash equivalents include cash on hand and at bank and deposits at call which have an insignificant risk of changes in value, net of outstanding bank overdrafts and less monies held in relation to the excess of share application pursuant to the Rights Issue.

2.2 Summary of Significant Accounting Policies cont'd

(I) Financial Instruments cont'd

(ii) Other Non-Current Investments

Non-current investments other than investments in subsidiaries are stated at cost less provision for any diminution in value other than temporary. Such provision is made when there is a decline other than temporary in the value of investments and is recognised as an expense in the period in which the decline occurred.

On disposal of an investment, the difference between net disposal proceeds and its carrying amount is recognised in profit or loss.

(iii) Marketable Securities

Marketable securities are carried at the lower of cost and market value, determined on an aggregate basis. Cost is determined on the weighted average basis while market value is determined based on quoted market values. Increases or decreases in the carrying amount of marketable securities are recognised in profit or loss. On disposal of marketable securities, the difference between net disposal proceeds and the carrying amount is recognised in profit or loss.

(iv) Receivables

Receivables are carried at anticipated realisable values. Bad debts are written off when identified. An estimate is made for doubtful debts based on a review of all outstanding amounts as at the balance sheet date.

(v) Payables

Payables are stated at the fair value of the consideration to be paid in the future for goods and services received.

(vi) Interest-bearing Borrowings

Interest-bearing bank loans and overdrafts are recorded at the amount of proceeds received, net of transaction costs.

Borrowing costs directly attributable to the acquisition and construction of property, plant and equipment are capitalised as part of the cost of those assets, until such time as the assets are ready for their intended use or sale.

All other borrowing costs are recognised as an expense in the income statement in the period in which they are incurred.

(vii) Equity

Ordinary shares are classified as equity. Dividends on ordinary shares are recognised in equity in the period in which they are declared.

2.3 Changes in Accounting Policies and Effects Arising from Adoption of New and Revised FRSs

(a) Adoption of New/Revised FRSs

On 1 January 2007, the Group adopted the following revised FRS and amendments to FRS:

FRS 124 Related Party Disclosures

The Malaysian Accounting Standards Board ("MASB") has issued FRS 6: Exploration for and Evaluation of Mineral Resources and Amendment to FRS 1192004: Employee Benefits – Actuarial Gains and Losses, Group Plans and Disclosures which will be effective for annual periods beginning on or after 1 January 2007. Both FRS 6 and Amendment to FRS 1192004 are not applicable to the Group.

The adoption of all the above standards does not result in significant changes to the accounting policies and does not have a significant financial impact on the Group other than additional disclosure requirements.

(b) Standards and Interpretations That Are Not Yet Effective

At the date of authorisation of these financial statements, the following standards and interpretations were in issue:

FRS 107	Cash Flow Statements
FRS 111	Construction Contracts
FRS 112	Income Taxes
FRS 118	Revenue
FRS 120	Accounting for Government Grants and Disclosure of Government
FRS 134	Interim Financial Reporting
FRS 137	Provisions, Contingent Liabilities and Contingent Assets

Amendments to

FRS 121 The Effects of Changes in Foreign Exchange Rates - Net Investment in a Foreign Operation

IC Interpretations I	Changes in Existing Decomissioning, Restoration and Similar Liabilities
IC Interpretations 2	Members' Shares in Co-operative Entities and Similar Instruments
IC Interpretations 5	Rights to Interests Arising from Decommissioning, Restoration and Environmental
	Rehabilition Fund
IC Interpretations 6	Liabilities Arising from Participating in a Specific Market - Waste Electrical and
	Electronic Equipment
IC Interpretations 7	Applying the Restatement Approach under FRS 1292004 - Financial Reporting
	in Hyperinflationary Economies
IC Interpretations 8	Scope of FRS 2

The above standards and interpretations are effective for year beginning on or after 1 July 2007 and are not applicable to the Group.

(c) Deferred Standard

FRS 139 application has been deferred to a date to be announced by MASB. The directors anticipate that the adoption of FRS 139 in future periods will not have a material impact on the financial statements of the Group.

2.4 Significant Accounting Estimates and Judgements

(a) Key Sources of Estimation Uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

(i) Recognition of Deferred Tax Assets

Deferred tax assets are recognised for all unused tax losses, unabsorbed capital allowances and provisions to the extent that it is probable that taxable profit will be available against which the losses, capital allowances and provisions can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

(ii) Impairment of Investment in Subsidiaries

Impairment review has been carried out on investment in subsidiaries by the Group during the year. Cost of investment in subsidiary which has ceased operations was fully impaired as at 31 December 2007. Certain other subsidiaries were impaired up to the net assets value of the subsidiaries.

(iii) Depreciation of Property, Plant and Machinery

The cost of plant and machinery is depreciated on a straight-line basis over the assets' useful lives. Management estimates the useful lives of these plant and machinery to be within 13 years. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

3. REVENUE

Revenue of the Group and the Company represents the invoiced value of sales less returns and discounts.

4. LOSS BEFORE TAXATION

Domestic current income tax is calculated at the statutory tax rate of 27% (2006: 28%) of the estimated assessable profit for the year. The domestic statutory tax rate will be reduced to 26% from the current year's rate of 27%, effective year of assessment 2008 and to 25% effective year of assessment 2009. The computation of deferred tax as at 31 December 2007 has reflected these changes.

Taxation for small and medium companies with paid-up capital of RM2,500,000 and below are calculated at the rate of 20% (2006: 20%) on chargeable income of up to RM500,000 (2006: RM500,000). For chargeable income in excess of RM500,000, the statutory tax rate of 28% is applicable.

29. FINANCIAL INSTRUMENTS

(a) Financial Risk Management Objectives and Policies

The Group's financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Group's businesses whilst managing its foreign currency risk, interest rate risk (both fair value and cash flow), liquidity risk and credit risk. The Group operates within clearly defined guidelines that are approved by the Board and the Group's policy is to not engage in speculative transactions.

(b) Foreign Currency Risk

The Group is exposed to transactional currency risk primarily through sales and purchases that are denominated in a currency other than the functional currency of the operations to which they relate. The currencies giving rise to this risk are primarily United States Dollar, Japanese Yen, Singapore Dollar, Australian Dollar, Euro, Sterling Pound, Taiwan Dollar, New Zealand Dollar, Hong Kong Dollar and China Renminbi. Foreign exchange exposures in these transactional currencies other than functional currencies of the operating entities are kept to an acceptable level.

31 December 2007 (cont'd)

29. FINANCIAL INSTRUMENTS cont'd

(b) Foreign Currency Risk cont'd

The net unhedged financial assets and liabilities of the Group that are not denominated in their functional currencies are as follows:

	2007	2006
	RM	RM
Functional Currency of the Group Companies		
United States Dollar	2,041,205	2,008,991
Japanese Yen (100 units)	(1,116)	(1,116)

Hong Kong Dollar	-	333,617
China Renminbi	-	95,591
	4,655,300	4,359,795

(c) Interest Rate Risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. As the Group has no significant interest-bearing financial assets, the Group's income and operating cash flows are substantially independent of changes in market interest rates. The Group's interest-bearing financial assets are mainly short term in nature.

The Group's interest rate risk arises primarily from interest-bearing borrowings. Borrowings at floating rates expose the Group to cash flow interest rate risk. Borrowings obtained at fixed rates expose the Group to fair value interest rate risk. The Group manages its interest rate exposure by maintaining a mix of fix and floating rate of borrowings.

Information on the carrying amounts, average interest rates as at balance sheet date and the remaining maturities of the Group's and Company's instruments that are exposed to interest rate risk are disclosed in Notes 19 and 20.

(d) Credit Risk

The Group's credit risk is primarily attributable to trade receivables. Credit risks are minimised, controlled and monitored through the application of credit approvals, limits and monitoring procedures. Credit risks are minimised and monitored via strictly limiting the Group's association to business partners with high creditworthiness. Trade receivables are monitored on an ongoing basis via Group management reporting procedures.

The credit risk of the Group's other financial assets, which comprise cash and cash equivalents marketable securities and non-current investments, arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these financial assets.

The Group does not have any significant exposure to any individual customer or counterparty nor does it have any major concentration of credit risk related to any financial assets.

31 December 2007 (cont'd)

29. FINANCIAL INSTRUMENTS cont'd

(e) Liquidity Risk

The Group manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that all refinancing, repayment and funding needs are met. During the financial year, the Group undertake a corporate exercise to maintain sufficient levels of cash or cash convertible investments to meet its working capital requirements.

(f) Fair Values

The carrying amounts of financial assets and financial liabilities approximate their fair values except for the following:

	Gro		
	Note	Carrying Amount RM	Fair Value RM
At 31 December 2007			
Borrowings			
Term loan	19	18,263,599	18,819,530

Hire purchase payables	20	5,067,996	4,957,143
		20,682,282	24,916,537

(i) Borrowings

The fair value of borrowings is estimated using discounted cash flow analysis, based on current incremental lending rates for similar types of lending and borrowing arrangements.

(ii) Quoted Shares

The fair value of quoted shares is determined by reference to stock exchange quoted market bid prices at the close of the business at the balance sheet date. The fair values of the quoted shares are as disclosed in Note 12.

(iii) Amount Due to/from Related Companies

It is not practical to estimate the fair values of amounts due to/from related companies due principally to a lack of fixed repayment term entered into by the parties involved and without incurring excessive costs. The directors are of the opinion that the carrying amounts recorded at the balance sheet date do not differ significantly from the values that would eventually be received or settled.

30. SIGNIFICANT EVENTS

During the financial year, the Company undertook the following corporate exercise:

(i) Capital Reduction

The Capital Reduction reduced the Company's accumulated losses that resulted in the elimination of the entire consolidated accumulated losses based on the Company's audited consolidated financial statements for the financial year ended 31 December 2006 amounting to RM38,223,251 in the following manner:

- reduction of the Company's issued and paid-up share capital pursuant to Section 64(1) of the Companies
 Act, 1965 via the cancellation of RM0.50 of the par value of each of the 58,726,357 ordinary shares of
 RM1.00 each in the Company in issue; and
- reduction of the Company's share premium account by RM8,860,072 pursuant to Section 60(2) and Section 64(1) of the Companies Act, 1965.

(ii) Share Consolidation

The Share Consolidation involves consolidation of every two (2) ordinary shares of RM0.50 each in the Company (post the Capital Reduction) into one (1) ordinary share of RM1.00 each in the Company.

(iii) Rights Issue

The Renounceable Rights Issue of up to 29,363,178 new shares in the Company at an issue price of RM1.00 per share together with 23,490,542 free detachable warrants ("Rights Warrants") on the basis of five (5) Rights Shares together with four (4) free Rights Warrants attached thereto for every five (5) existing ordinary shares of RM1.00 each in the Company held after the Capital Reduction and Share Consolidation. The Rights Issue was completed on 27 December 2007.

(iv) Exemption from Obligation to Undertake a Mandatory General Offer

Exemption for E & O Property Development Berhad ("EOPD"), Samudra Pelangi Sdn. Bhd. ("SPSB") and parties acting in concert with EOPD and SPSB, (collectively referred to as the "Parties Acting In Concert") from the obligation to undertake a mandatory offer to acquire the remaining shares in the Company and other relevant securities not already held by the Parties Acting In Concert which arose pursuant to the Rights Issue.

(v) Private Placement

EXPLANATORY NOTES TO SPECIAL BUSINESS:

6. Authority for Directors to Issue Shares

The Ordinary Resolution proposed under item 6 of the Agenda, if passed, will empower the Directors to issue shares in the Company up to an amount not exceeding in total 10% of the issued share capital of the Company, subject to compliance with the relevant regulatory requirements. The approval is sought to avoid any delay and cost in convening a general meeting for such issuance of shares. This authority, unless revoked or varied by the Company at a general meeting, will expire at the next Annual General Meeting.

7. Proposed Renewal of Existing Shareholders' Mandate for Recurrent Related Party Transaction of A Revenue or Trading Nature and Proposed New Shareholders' Mandate for Additional Recurrent Related Party Transactions of A Revenue or Trading Nature

The Ordinary Resolutions proposed under items 7 and 8 of the Agenda, if passed will enable the Company and its subsidiaries (Fututech's Group) to enter into any of the new and existing recurrent related party transactions of a revenue or trading nature which are necessary for Fututech Group's day to day operations, subject to the transactions being in the ordinary course of business and on normal commercial terms which are not more favourable to the related parties than those generally available to the public and are not to the detriment of the minority shareholders of the Company.
