

Kerjaya On Winning Streak, Bags RM56.4 Million Contract From Penang Govt

November 12, 2025

Kerjaya Prospek Group Berhad seems to be on a winning streak as its wholly-owned subsidiary secures a RM56.4 million contract this time from the Penang state government for the construction of steel roof structures, including a hawker center at Jalan Gurney, Pulau Pinang.

The letter of award was received and accepted by KPM on 12 November 2025, following the issuance of the contract by JKMPP on 11 November 2025. The project is scheduled to commence immediately and is expected to be completed within 18 months.

The contract, awarded on a fixed lump sum basis, covers the design and construction of the steel roof structures and associated works for the hawker center.

This comes after the group was awarded two major construction deals this week.
