KUALA LUMPUR: Bursa Malaysia opened lower in early trading today but rose slightly thereafter, led by buying interest, mainly in the plantation and construction counters.

At 9.15 am, the FTSE Bursa Malaysia KLCI (FBM KLCI) was firmer at 0.85 of a point to 1,603.54 from Wednesday's close of 1,602.69, after opening 1.43 points weaker at 1,602.26.

Market breadth was negative, with decliners outpacing gainers 222 to 145, while 298 counters were unchanged, 2,031 untraded and eight suspended.

Turnover stood at 254.08 million shares worth RM183.56 million.

Rakuten Trade Sdn Bhd's vice-president of equity research Thong Pak Leng noted that Wall Street closed broadly lower due to concerns over the trade tension between the United States and China, coupled with the ongoing government shutdown.

Back home, he said the FBM KLCI slid to almost the 1,600 mark at yesterday's closing as the market undertone was impacted by the regional sell-down.

"Judging by the decline, we suspect foreign funds as the persistent sellers. Nonetheless, we believe bargain hunting activities should emerge; thus, expect the index to recover within the 1,600-1,610 range today," he said.
