

Kerjaya Prospek wins RM53 data centre infrastructure contract

Thursday, July 23rd, 2026

KERJAYA Prospek Group Bhd has secured a RM52.5 million subcontract for civil, structural and mechanical and electrical (M&E) works for a new 275-kilovolt (kV) consumer landing station serving a data centre in the Klang Valley.

The contract was awarded to the group's wholly owned subsidiary, Kerjaya Prospek (M) Sdn Bhd, and covers the execution, completion, testing and rectification of defects for civil, structural and basic low-voltage M&E works. The fixed lump sum contract commenced on July 23, 2026 and is scheduled for completion on Jan 9, 2027.

Kerjaya Prospek said the contract is expected to provide an additional revenue stream for the group over the next one year and further strengthen its existing order book.

The award is also expected to contribute positively to the group's earnings and net assets per share for the financial years ending 2026 and 2027. **-TMR**
