B5. CORPORATE PROPOSAL

There were no corporate proposals announced but not completed as at 27 November 2020.

B6. SEASONAL OR CYCLICAL FACTORS

The Group operation is seasonal in nature whereby the turnover for the first three months of a calendar year is slightly lower due to long festive holidays which fall on the first quarter of the calendar year and also the lower demand in the United States which normally slows down after Christmas and New Year.

B7. CURRENT YEAR PROSPECT

The Group's results have gradually improved due to easing of the restricted movement control orders at most of our operating factories. Sales orders have also gradually improved as restrictions on movement of goods in our international markets are gradually lifted. However, as pandemic situation has not abated, with number of infections increasing especially in US, and coupled with impasse in the US presidential election, the uncertainty of the economic environment remains.

The operating environment in times like this, the global economic uncertainties, calls for much prudence and caution in all levels of decision making. The Group is continuing with its cost reduction strategies, enhancing production efficiency, development of new products and new designs in the "new normal" environment and effective cost management across all functions.

Barring any unforeseen circumstances, the Board believes that the Group will remain profitable for the financial year ending 30 June 2021.

B8. VARIANCE BETWEEN ACTUAL RESULT AND FORECAST PROFIT OR PROFIT GUARANTEE

The Group did not issue any profit forecast or profit guarantee for the quarter ended 30 September 2020.
