B1. Review of Performance

For the current quarter ended 30 September 2013 the Group recorded a revenue of RM62.2 million which represented a 5.5% decline over the corresponding quarter of the preceding year due mainly to a drop in shipment volume. Demand was strong but unplanned downtime of casters affected production capacity.

The Group incurred a lower net loss attributable to equity holders of RM1.4 million for quarter under review as compared to net loss of RM3.2 million recorded in the corresponding quarter last year. This was a result of improved margins coupled with a more favourable sales mix achieved in the current quarter.

Cash reserves at the end of the quarter under review stood at RM40.4 million as compared to RM32.7 million at the end of the corresponding quarter of the preceding year.

B2. Material changes in profit before taxation for the quarter as compared with the preceding quarter

The Group recorded a pre-tax loss of RM1.9 million for the current quarter under review as compared to a pre-tax loss of RM0.9 million registered in the preceding quarter. The higher net loss was due mainly to a decline in shipment volumes by approximately 11% resulting from production capability limitation due to the unplanned caster downtime.

B3. Commentary on Prospects

Overall business environment remains challenging on both the global and domestic fronts with the domestic growth moving in a similar trend as last year. The Group will continue to maintain its strategy of optimizing its products portfolio to generate maximum contribution whilst continuing to enhance operational efficiencies and selective cost containment initiatives for the second half of the financial year.

Not applicable.
