

# STATEMENT OF POLICY ON QUALITY, HEALTH, SAFETY AND ENVIRONMENTAL PROTECTION

It is the objective of **AVANGAAD BERHAD** ("Avangaad") to ensure the quality of our business, safety, prevention of human injury, health disease, or loss of life, and avoidance of damage to the environment, particularly the marine environment, and property.

It is the policy of the company to provide healthy and safe working conditions and to maintain a safe and pollution-free operating practices that comply with national and international regulations, as well as relevant standards and guidelines.

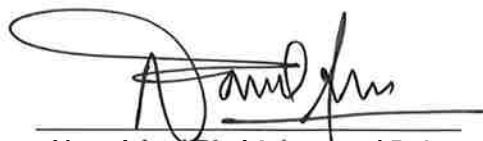

## Company Objectives:

With the total commitment of the management and marine personnel, Avangaad will strive to:

- Provide safe practices in shore and ship operations and maintain a safe working environment.
- Assess all identified risks to its ships, personnel, and the environment and establish appropriate safeguards.
- Continuously improve occupational safety and health, as well as environmental management skills of personnel ashore and aboard ships, including preparing for emergencies related to both safety and environmental protection.
- Implement and continually improve the effectiveness of Quality Management System (QMS) and Safety Management System (SMS).
- Commit to Environmental, Social, and Governance (ESG) principles by sustainability, ethical business conduct, and corporate responsibility into our operations.
- Committed to promoting Quality and HSSE initiatives by ensuring that all employees, partners, contractors, subcontractors, and visitors are fully aware of and adhere to all applicable requirements at all times.
- Prevent pollution from spillage and discharge of oil, disposal of garbage, or any toxic substance, as well as through emissions to the atmosphere.

## The Aim:

- Achieving zero defects, accidents, and downtime.
- Achieving zero injuries and fatalities.
- Preventing oil spills and pollution of the seas.
- Creating a safe and healthy environment.
- Continuously implementing and improving the management system.
- Meeting client requirements and enhancing client satisfaction.
- Establishing safe SOx/NOx emission limits for all fleet vessels.
- Incident and accident records shall be reviewed on a quarterly basis to assess the effectiveness of mitigation measures.
