PART B - EXPLANATORY NOTES PURSUANT TO MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B1. OPERATING SEGMENTS REVIEW (Continued)

The Group's revenue increased by 24.8% to RM25.49 million for the current quarter under review compared to the previous year's corresponding quarter revenue of RM20.42 million. All segments showed a notable performance with strong growth of 34.0% for WMS, 23.7% for FMS-G, 23.3% for DT and 9.6% for FMS-C. Significant growth in WMS segment was mainly attributed by additional revenue from CIMB Niaga and Unit Trust Management System for Pelaburan Hartanah Berhad (Malaysia) of RM0.96 million. The strong growth in FMS-G segment was mainly contributed by the increase in SAGA maintenance revenue by CSM by RM3.37 million. Whilst higher growth in DT segment was mainly due to increased transactions by existing clients for eTender business by RM432k; and increase in billable Microsoft Azure Managed Services by RM172k. The FMS-C segment experienced a modest growth, driven by the successful implementation of two ERP projects which were secured in March 2024 from two clients, Hasilwan Sdn Bhd and HRSB Holdings Sdn Bhd, with a revenue generated of RM730k.

The Group registered a profit before taxation of RM2.79 million compared to the previous year's corresponding quarter loss before taxation of RM792k, mainly attributable to higher revenue as explained above.

B2. MATERIAL CHANGES IN CURRENT QUARTER'S RESULT AS COMPARED TO PRECEDING QUARTER (Continued)

The Group reported a revenue of RM25.49 million for the current quarter, representing a decrease of RM5.73 million (18.4%) compared to RM31.22 million in the preceding quarter. This decline is primarily due to a 21.4% reduction in revenue from the FMS-G segment, which in the preceding quarter included the renewal of the DBKL annual license amounting to RM2.80 million and the MOT iSPKP project valued at RM1.43 million. Additionally, the WMS segment saw a 10.7% decrease in revenue this quarter, primarily due to the inclusion of RM472k from the license renewal of WMS Bond Pasar Sekunder project for Bank Syariah Indonesia in the preceding quarter. Conversely, the FMS-C and DT segments experienced modest revenue growth of 4.2% and 0.7%, respectively.

The Group's profit before taxation for the quarter was RM2.79 million, a 28.3% decrease from RM3.89 million in the previous quarter. This decline is mainly attributable to the reduced revenue as detailed above.

INTERIM REPORT FOR THE QUARTER ENDED 30 JUNE 2024

PART B - EXPLANATORY NOTES PURSUANT TO MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B3. CURRENT FINANCIAL YEAR PROSPECTS

The technology sector in Malaysia is poised for significant growth in 2024, driven by a combination of domestic initiatives, global trends, and industry-specific factors. Despite challenges posed by the COVID-19 pandemic and geopolitical uncertainties, Malaysia's technology sector is expected to continue its upward trajectory, fueled by government support, increasing digitalisation efforts, and a growing tech-savvy workforce. In 2024, the Malaysian government continues to prioritise the development of the technology sector as part of its broader economic transformation agenda. With a focus on digitalisation, innovation, cyber security and human capital development, Malaysia aims to establish itself as a regional hub for technology-driven industries.

The ongoing digitalisation and deployment of 5G, artificial intelligence and Internet of Things in Malaysia are expected to create growing demand for technology solutions with allocation of RM100 million in digitalisation grants for MSMEs and RM900 million in loan funds for SMEs (Budget 2024). The information and communication subsector are anticipated to further expand, mainly led by the wider digital adoption by businesses and individuals. National projects such as the National Fiberisation and Connectivity Plan (NFCP) aim to enhance broadband coverage and affordability, laying the foundation for a digital economy. In addition, efforts to attract high-quality investment in digital-related infrastructures such as data centres and cloud computing services along with continued surge of online streaming activities will further boost the subsector.

The recent Budget 2024 provides another opportunity for the Group with the introduction of mandatory e-invoicing for taxpayers with annual income or sales exceeding RM100 million, starting from August 1, 2024. E-invoicing for taxpayers in other income categories will be enforced in phases, with a comprehensive implementation target of July 2025. Invoicing requirements for Malaysian businesses will change significantly due to the upcoming e-invoicing mandate. Businesses will be compelled to proactively prepare for the upcoming e-invoicing mandate and assess their current IT systems, ERP systems, and tax compliance processes to ensure they are aligned with the new requirements.

However, Malaysia's sales and services tax (SST) will increase from 6% to 8% effective 1st March 2024. The implementation of the SST at a rate of 8% will have various impacts on businesses and consumers. Businesses are required to collect and remit the SST on taxable goods and services, which may affect their pricing strategies and profit margins. Overall, the impact of the 8% SST in Malaysia can influence the economy, business operations, and consumer behavior.

Another challenge includes the value of the Malaysian ringgit which is currently about 4 per cent away from reaching 4.8850 per US dollar, a level last seen in 1998 when the Asian financial crisis ravaged the region's currencies. The local currency has dropped nearly 2 per cent this year. This will increase the operating costs for the Group as its main technology service providers are in US dollars.

The Group will continue to play a key part in meeting the evolving digitalisation needs of the public and private sectors and e-invoicing mandate opportunities by leveraging on the strength of the Group's financial management solutions and products and the synergies among our subsidiaries to deliver innovative and effective solutions and services. To mitigate the risk of fluctuations in currency exchange rates, the Group will closely monitor currency trends and adjust our procurement strategies as needed to mitigate any potential negative impacts.

CENSOF ACHIEVES RM2.1 MILLION IN PROFIT AFTER TAX FOR Q1FYE2025

Petaling Jaya, 22 August 2024 – Censof Holdings Berhad ("Censof" or the "Group"), a technology holdings company specialising in financial management software solutions, today announced its first quarter results for the financial year ending 31 March 2025 ("Q1FYE2025").

For the quarter under review, Censof achieved a 24.8% growth, year-on-year, in revenue to RM25.5 million from Q1FYE2024's RM20.4 million. This growth was driven by the robust performance across all segments, with the Wealth Management Solutions segment recording a 34.0% increase in revenue. The Group's subsidiary, PT Praisindo was the segment's sole revenue contributor, where additional revenue was primarily derived from her clients, namely PT Bank CIMB Niaga TBK (Indonesia) and Pelaburan Hartanah Berhad for its Unit Trust Management System. This is followed by Financial Management Solutions – Government segment's 23.7% revenue improvement, attributed to the increase in SAGA maintenance revenue, while its Digital Technology segment recorded a 23.3% revenue hike, due to the increased transactions from existing clients for eTender business, and an increase in billable Microsoft Azure Managed Services. The Financial Management Solutions – Commercial & SME segment in turn, experienced a 9.6% growth, driven by the successful implementation of enterprise resource planning solution projects from Hasilwan Sdn Bhd and HRSB Holdings Sdn Bhd, which were secured in the previous quarter. The higher Q1FYE2025 enabled the Group to post a profit after tax of RM2.1 million, as compared to a loss after tax of RM1.1 million in Q1FYE2024.

Censof Group Managing Director Ameer Shaik Mydin commented, "We are pleased with our strong first quarter performance, reflecting our commitment to sustainable growth across all business segments. Our success, particularly in the public and private sectors, stands as a testament to our effective strategic execution within the digital technology arenas. This achievement is closely aligned with the growing digitalisation efforts driven by the government initiatives. Our ability to effectively navigate and capitalise on these trends underscores our leadership in the industry and our commitment to staying ahead of the curve in a rapidly evolving technological landscape. By leveraging on our financial management expertise and collaborative capabilities of our subsidiaries, we will keep

delivering innovative solutions and services, including taking advantage of opportunities presented by the e-invoicing mandate. The Group has now embarked into the e-invoicing journey, which is being implemented across its clienteles. Notably, Censof has received the MDEC accreditation as a PEPPOL service provider and PEPPOL-Ready solution provider and also successfully integrated with LHDN to send and receive validated invoices. This accreditation serves as a crucial validation of e-invoicing systems, instilling confidence among SMEs in their e-invoicing implementation and empowers businesses to adopt e-invoicing with greater trust and security. With this, we believe e-invoicing will revolutionise invoicing efficiency, benefiting all our clients in the coming future. As we move forward, we remain focused on building on this momentum, further advancing our capabilities to deliver value to our clients and stakeholders."
