### **PRE AGM QUERIES AND RESPONSES**

QUESTIONS RAISED BY Kam Hong Yeap
-----------------------------------

**Question 1**

Should management be more aggressive in the share buyback? Company is cash rich and share price is almost at par with liquid asset (mostly cash). Thank you.

**Comfort's reply to Question 1**

Any decision to buy or sell could be a multitude of factors and as to what those factors are. These factors include but not limited to working capital / cash flow requirement for the Group, long-term and short-term business plan of the Group, resources required for the share buy-back, purchase price etc.
