PRESS RELEASE
FOR IMMEDIATE RELEASE

INFOMINA EXPANDS ENTERPRISE TECHNOLOGY CAPABILITIES WITH RM25.5 MILLION BLUE FORTRESS ACQUISITION

KUALA LUMPUR, 19 August 2026 – Technology solutions provider **Infomina Berhad 盈获数码科技集团** ("**Infomina**" or the "**Group**"), through its wholly owned subsidiary **Infomina Services Sdn Bhd** ("**ISSB**"), is acquiring a 51% stake in cybersecurity specialist **Blue Fortress Sdn Bhd** ("**BFSB**") for RM25.5 million, strengthening the Group's expansion into higher-value enterprise technology services beyond its established mission-critical infrastructure business.

ISSB has entered into a share sale agreement with the shareholders of BFSB to acquire 102,000 ordinary shares, representing a 51% equity interest in BFSB.

The acquisition gives Infomina an established cybersecurity platform serving financial institutions, government agencies and large enterprises, while adding capabilities in cryptography, key management, data protection, identity management and information security to its existing portfolio across mission-critical infrastructure, cloud, data, artificial intelligence ("AI") and managed services.

For Infomina, the acquisition strengthens cybersecurity as a core capability across its enterprise technology portfolio. It also creates opportunities to deepen relationships with existing customers by combining BFSB's specialised security capabilities with the Group's broader infrastructure, cloud, data and AI offerings, while giving BFSB access to Infomina's regional customer base and delivery capabilities.

BFSB serves major commercial banks in Malaysia, as well as large enterprises and government agencies. Its solutions help organisations protect critical digital assets, strengthen cyber resilience and address evolving security and regulatory requirements.

For the financial year ended 30 June 2025, BFSB recorded revenue of RM29.5 million, profit after tax ("PAT") of RM4.3 million and net assets of RM4.6 million.

As part of the transaction, Luke Shu Ern Huong, Managing Director of BFSB and a shareholder who will retain a 49% stake following completion, has provided a guarantee of cumulative audited PAT of RM17.5 million for the three financial years ending 2027, 2028 and 2029.

The acquisition is expected to be earnings accretive and provides Infomina with an established cybersecurity business supported by recurring enterprise customer relationships. It is also expected to expand the Group's addressable market and create cross-selling opportunities across both customer bases, particularly in financial services and other regulated sectors.

Yee Chee Meng 余志明, Chief Executive Officer cum Managing Director of Infomina, *commented:*
"Infomina has built a strong foundation in mission-critical infrastructure, and we are continuing to expand into higher-value technology capabilities that are increasingly important to enterprise customers.

"Blue Fortress brings established cybersecurity expertise and deep relationships in regulated industries, complementing our capabilities across infrastructure, cloud, data and AI. By combining these capabilities, we can deepen our engagement with existing customers, broaden our solutions offering and pursue new opportunities in the regional enterprise market."

Luke Shu 徐恩鸿, Managing Director of Blue Fortress Sdn Bhd*, said:*
"Joining Infomina provides Blue Fortress with a platform to scale our cybersecurity business and broaden our market reach. Our specialised security capabilities, together with Infomina's regional presence and enterprise technology expertise, will allow us to serve customers more comprehensively as their security and regulatory requirements evolve."

The acquisition is expected to be completed in the third quarter of 2026, subject to the fulfilment of customary conditions precedent. Upon completion, BFSB will become a subsidiary of ISSB and an indirect subsidiary of Infomina.

The RM25.5 million acquisition consideration will be funded through a combination of cash and existing treasury shares of Infomina.

From left to right: *Eddie Thoo 陶玮杰, Chief Financial Officer of Infomina Berhad; Yee Chee Meng 余志明, Chief Executive Officer cum Managing Director of Infomina Berhad; Luke Shu 徐恩鸿, Managing Director of Blue Fortress Sdn Bhd and Yap Sin Hoe 叶新豪, Senior Channel Sales Manager of Blue Fortress Sdn Bhd.*

ABOUT INFOMINA BERHAD

Infomina Berhad ("Infomina" or the "Group") is a regional technology solutions provider specialising in the design, implementation, operation, maintenance and support of enterprise technology applications and infrastructure that support customers' core business operations.

Headquartered in Malaysia, the Group serves customers across Asia, including Malaysia, Singapore, Thailand, the Philippines, Indonesia, Hong Kong, China, Taiwan and Japan. Infomina has established expertise in mission-critical infrastructure and mainframe technologies, while expanding its capabilities across cloud, data, AI, cybersecurity and managed services.

As part of its long-term growth strategy, the Group has broadened its portfolio through subsidiaries including Infomina AI Sdn Bhd and Infomina Geolytik Sdn Bhd, which focus on AI-enabled solutions, analytics, digital platforms and industry-specific applications. Its proprietary platforms, including PaymentXchange, ValuationXchange, AiMod and AiExe, support digital transactions, property intelligence, automation and decision-making across enterprise environments.

Infomina also contributes to Malaysia's digital ecosystem through its long-standing collaboration with Suruhanjaya Syarikat Malaysia ("SSM"), including the operation of the SSM Search Portal (www.ssmsearch.com) and enterprise data connectivity services.

The Group continues to evolve from its foundation in mission-critical infrastructure into a broader enterprise technology solutions provider, combining established capabilities with emerging technologies to support customers' digital transformation and operational resilience.
