PRESS RELEASE
FOR IMMEDIATE RELEASE

INFOMINA SECURES RM32.1 MILLION KDN CONTRACT TO SUPPORT JPN'S CORE APPLICATION SYSTEMS

Contract Covers System Maintenance and Technical Support

KUALA LUMPUR, 27 October 2026 – Technology solutions provider **Infomina Berhad** 盈获数码科技集团 **("Infomina**" or the "**Group")** has secured a contract worth approximately RM32.1 million from **Kementerian Dalam Negeri ("KDN")** for the provision of maintenance and technical support services for the core application systems (*Sistem Aplikasi Utama*) of **Jabatan Pendaftaran Negara Malaysia ("JPN"),** further strengthening the Group's portfolio of public sector technology engagements.

The Group had on 27 October 2026 accepted the **Surat Setuju Terima ("SST")** from KDN. The contract, valued at **RM32,111,556.12** (excluding service tax), has a tenure of 24 months, commencing on 1 November 2026 and ending on 31 October 2028.

Infomina will provide maintenance and technical support services for JPN's core application systems on a performance-based contract basis. The scope of services encompasses system maintenance, technical support, data and file management, as well as user training, technical courses and review workshops.

The latest contract further expands Infomina's portfolio of operations, maintenance and support engagements, strengthening its earnings visibility while supporting the Group's long-term growth. The contract is expected to contribute positively to the Group's earnings over the contract period.

The contract win also follows Infomina's strong financial performance in the first quarter ended 31 August 2026 **("1QFY2027"),** during which the Group recorded a 39.6% year-on-year increase in revenue to RM76.2 million, while profit before tax ("**PBT**") rose by 27.3% to RM12.6 million. Notably, the Group's newly reported AI solutions and data business services segment contributed RM8.4 million, representing approximately 11.0% of total revenue, reflecting encouraging progress in its efforts to diversify its revenue streams and broaden its technology capabilities.

***Yee Chee Meng** 余志明, **Chief Executive Officer cum Managing Director of Infomina,** commented:*
"We are pleased to secure this contract from KDN to support JPN's core application systems. This contract reflects the continued confidence in Infomina's capabilities to manage and maintain critical technology environments that support essential public-sector operations.

Beyond providing system maintenance and technical support, our scope also encompasses data and file management, user training, technical courses and review workshops. These services will allow us to leverage our technical expertise to support the reliability and operational effectiveness of JPN's core application systems throughout the contract period.

This latest contract further reinforces Infomina's track record in supporting mission-critical technology systems within Malaysia's public sector. As government agencies and enterprises continue to rely on robust and reliable technology infrastructure to support their operations, we believe our established capabilities in maintenance and technical support position us well to address their evolving requirements.

We will continue to pursue opportunities across both the public and private sectors, leveraging our expertise alongside our expanding capabilities in applications, cloud, data, artificial intelligence ("**AI**"), cybersecurity and managed services. Together with the encouraging performance of our core business and growing contribution from our AI solutions and data business services segment, we remain focused on strengthening our portfolio of technology solutions and supporting the Group's next phase of growth."

ABOUT INFOMINA BERHAD

Infomina Berhad ("Infomina" or the "Group") is a regional technology solutions provider delivering enterprise technology applications, infrastructure and services that support customers' core business operations. Its capabilities span the design, implementation, operation, maintenance and support of technology environments across the enterprise.

Headquartered in Malaysia, the Group has an established presence across nine markets in Asia Pacific: Malaysia, Singapore, Thailand, the Philippines, Indonesia, Hong Kong, China, Taiwan and Japan. Infomina has further expanded its regional footprint to Australia, New Zealand, South Korea and India. The Group specialises in mission-critical infrastructure and mainframe technologies, with growing capabilities in cloud, data, artificial intelligence, cybersecurity and managed services.

As part of its long-term growth strategy, the Group continues to broaden its technology portfolio through subsidiaries including Infomina AI Sdn Bhd and Infomina Geolytik Sdn Bhd, which focus on AI-enabled solutions, analytics, digital platforms and industry-specific applications. Its proprietary platforms, including PaymentXchange, ValuationXchange, AiMod and AiExe, support digital transactions, property intelligence, automation and decision-making across enterprise environments.

Infomina also contributes to Malaysia's digital ecosystem through its long-standing collaboration with Suruhanjaya Syarikat Malaysia ("SSM"), including the operation of the SSM Search Portal (www.ssmsearch.com) and enterprise data connectivity services.

Building on its established technology capabilities and partnerships, the Group continues to expand its enterprise technology portfolio and regional presence, combining proven expertise with emerging technologies to help customers enhance operational resilience, modernise technology environments and pursue digital transformation.
