

INFOMINA RECEIVES SOFTWARE SUBSCRIPTION RENEWAL FROM BANGKOK BANK WORTH RM42 MILLION

All-time high orderbook reinforces recurring income visibility and regional banking presence

KUALA LUMPUR, 11 MAY 2026 - INFOMINA BERHAD (盈获数码科技集团) (“Infomina” or “Group”), a regional technology solutions provider, today announced that Infomina (Thailand) Co., Ltd. (“**Infomina TH**”), a 99.99%-owned subsidiary of the Group, had received **Software Subscription Renewal (“Software Subscription”)** from **Bangkok Bank Public Company Limited (“BBL”)**, confirming their acceptance to proceed with the terms of the Software Subscription.

Details of the Software Subscription

The Software Subscription is for the provision of technology application and infrastructure operations, maintenance, and support services to BBL, a banking institution in Thailand. The Software Subscription includes assisting BBL in renewing license subscriptions, provision of training to BBL’s personnel, and supplying the fixes required for installation and operations (such as detailed operations and maintenance manuals). The services also encompass assessing and monitoring the software environment of BBL to ensure it is updated with the latest relevant supported version.

Infomina TH will also provide online and offline support services, periodical maintenance to the software (including providing BBL with the relevant manuals), ad-hoc technical and repair services as well as consumption or utilisation monitoring and reporting services.

The tenure of the Software Subscription is **three (3) years commencing from 31 March 2026 to 30 March 2029** (“Period”). The value for the Software Subscription is **USD10.75 million (exclusive of value-added tax) (equivalent to approximately RM42.1 million)** and will be invoiced progressively over the Period. Infomina TH and BBL will execute and enter into a software subscription agreement in due course. Any renewal of the Software Subscription in the future will be subjected to new agreements to be negotiated with BBL towards the end of the Period.

With this latest contract win, the Group’s outstanding orderbook now reached an all-time-high of approximately RM615million, further strengthening earnings visibility for the coming years.

Yee Chee Meng (余志明), Chief Executive Officer cum Managing Director, Infomina Berhad, commented: “We are pleased to receive this software subscription renewal from BBL, which reflects the continued trust placed in Infomina as a long-term technology partner in supporting mission-critical banking environments. This renewal further reinforces our strong track record in delivering reliable and high-quality services to leading financial institutions in the region.

Since the beginning of 2026, the Group has secured a series of contract wins and renewals across both the public and financial services sectors. Management is encouraged by this continued momentum, which reflects the strength of our recurring business model and the deep relationships we have built with our clients over time. With this latest renewal, our outstanding orderbook has reached an all-time-high of approximately RM615 million, providing strong revenue visibility and supporting our growth momentum going forward.

This latest renewal also strengthens our regional footprint, particularly in Thailand, and serves as a strong testament to our capabilities in supporting complex technology infrastructure and application environments across multiple markets.

At the same time, we continue to advance our data-driven and AI-enabled solutions under the Infomina AI initiative. As enterprises accelerate their digital and AI transformation efforts, we are seeing growing demand for solutions that integrate data, analytics, and automation. These developments position the Group well to drive scalable, recurring income and support our long-term growth trajectory.

With a growing orderbook and sustained demand across our core markets, we remain confident in our ability to deliver consistent performance and create long-term value for our stakeholders.”

Outlook

Infomina continues to build on its strong momentum from recent contract wins and renewals, further strengthening its orderbook and reinforcing earnings visibility for the coming years. The Group’s expanding base of recurring operations, maintenance, and support services provides a resilient foundation for sustainable growth across both the public and financial services sectors.

At the same time, Infomina remains focused on advancing its innovation agenda under the Infomina AI initiative, with platforms such as *PaymentXchange*, *ValuationXchange*, *AiMod* and *AiExe* enhancing its

capabilities in data analytics, automation and decision intelligence. As organisations accelerate their digital and AI transformation efforts, the Group is well-positioned to capture growing demand for integrated, data-driven solutions. In Malaysia, Infomina also continues to play a key role in supporting national digital infrastructure, including its ongoing work with the Suruhanjaya Syarikat Malaysia (“SSM”).

Together with steady progress in expanding its regional footprint, particularly in Japan and Thailand, these developments position Infomina well to capture new opportunities, drive scalable growth, and deliver long-term value to its stakeholders.

ABOUT INFOMINA BERHAD

Infomina Berhad (“Infomina” or the “Company”) is a regional technology solutions provider, principally involved in the design and implementation of technology applications and infrastructure solutions that support the core business operations of its customers. The Company further supports its customers through customised operations, maintenance, and support services for technology solutions.

Infomina specialises in mainframe technology solutions and possesses capabilities in developing and integrating solutions based on other technologies. Mainframes are primarily used by large organisations for mission-critical, large-scale, and real-time applications such as bulk data and transaction processing.

The Company has a diverse customer base across multiple countries in Asia – including Malaysia, Singapore, Thailand, the Philippines, Indonesia, Hong Kong, China, Taiwan, and Japan, spanning both the private and public sectors.

As part of its long-term growth strategy, Infomina has expanded into data-driven and artificial intelligence (“AI”) solutions through its new venture, *Infomina AI*. This initiative focuses on developing scalable digital platforms and products such as data connectors, analytics tools, and AI-powered applications that enable clients to extract greater value from their enterprise data. These ventures mark the Group’s next phase of growth beyond its traditional infrastructure business.

Through its subsidiaries, Infomina principally operates in Malaysia, Singapore, Thailand, the Philippines, Indonesia, Hong Kong, and Japan.
