PART B: EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA SECURITIES (CONTINUED)

B 2. Comparison with immediate preceding quarter results

	Current quarter 31.05.2026 RM'000	Preceding quarter 28.02.2026 RM'000	Variance RM'000	%
Revenue	84,621	75,885	8,736	11.5%
PBT	12,943	10,464	2,479	23.7%

The Group's revenue for the current quarter increased by RM8.7 million or 11.5% as compared to RM75.9 million in the immediate preceding quarter. The increase in revenue was mainly due to the increase in revenue contribution from the technology infrastructure operations, maintenance, and support services segment.

The Group's PBT for the current quarter increase by RM2.5 million or 23.7% as compared to a PBT of RM10.5 million in the immediate preceding quarter. This was primarily due to the increase in profit contribution from the technology infrastructure operations, maintenance, and support services segment.

B 3. Prospects

During the current quarter and to date, the Group continued to strengthen its recurring revenue base through the renewal of long-term contracts with key customers across the region. Notably, the Group's subsidiary Infomina (Thailand) Co., Ltd. secured a software subscription renewal contract from Bangkok Bank Public Company Limited valued at approximately USD10.75 million (equivalent to RM42.1 million) for the provision of technology application and infrastructure operations, maintenance and support services over a three-year period ending 30 March 2029. In addition, Infomina Berhad secured a contract from Jabatan Pengangkutan Jalan Malaysia ("JPJ") for the provision of ICT infrastructure and related services, valued at RM21.13 million (inclusive of Sales and Service Tax). The contract is for a period of 36 months, commencing from 1 August 2026 to 31 July 2029. These achievements reflect the continued confidence of the Group's local and regional customers in its service capabilities and further enhances the Group's recurring revenue visibility. The Group remains focused on strengthening long-term customer relationships by delivering reliable technology infrastructure operations, maintenance and support services, while actively pursuing new opportunities across its core markets.

During the current quarter, the Group continued to strengthen its artificial intelligence ("AI") capabilities and entered into a strategic collaboration with LGMS Berhad to develop the industry first AI driven platform designed to streamline Payment Card Industry Data Security Standard (PCI DSS) compliance for merchants, in a move expected to widen access to professional cybersecurity assurance services.

B 3. Prospects (Cont'd)

The Group continues to expand its regional presence in Japan, where customer traction has shown encouraging progress. These developments, together with disciplined execution and sustained demand across both public and enterprise segments, are expected to support the Group's growth trajectory, enabling it to capitalise on emerging opportunities and deliver sustainable long-term value to its stakeholders.

Barring any unforeseen circumstances, the Board of Directors remain optimistic of the Group's outlook despite the ongoing global economic uncertainties.

The Group's effective tax rate for the corresponding quarter is negative due to the provision for doubtful debts made during the corresponding quarter which is not tax deductible.
