MANAGEMENT DISCUSSION

Dear Valued Shareholders

On behalf of the Board of Directors of DVM Technology Bhd, I am pleased to present you the Annual Report and Audited Financial Statements of the Group and of the Company for the financial year ended 31 December 2011.

Overview & Financial Review

The financial year under review has been the most challenging one for the Group. The main area of concern is the declining global and domestic market demand, stiff competitive market and reducing profit margin.

For the financial year ended 31 December 2011, the Group recorded lower group revenue of RM29.14 million as compared to RM47.75 million in the preceding financial year, approximately 39% lesser than the previous financial year. Loss after tax in the current year under review fell in tandem to RM7.36 million from RM2.18 million in preceding financial year.

The operations were mainly focusing on the development of our core competencies that were tailored to meet both local and overseas customers demand and expectations in terms of functionality and superior features found in our products and strengths.

Development

Although the overall business sentiments are still a little hazy on account of the current economic concerns, we have moving ahead with the adoption of a number of initiatives to better prepare for the challenges ahead of us. The Group has instituted not only improve operating efficiency and rein in costs where feasible, but also actively seek out potentially profitably synergistic activities to improve the Group's future income streams and ultimately its bottom line.

The Group will continue to invest significantly in enhancing its current products with more feature enriched Broadband Telephony, 3G mobile video applications and other technology related matters. The Group will also invest in the necessary infrastructure and human resources to ensure efficient deliverables and support service to local and overseas customers.

Prospects

The Group is of a strong opinion that the R&D expenditure, which is vital to the Group's sustainability of its business operations, is expected to contribute positively to the Group's performance in future.

The receipt of an award from Frost & Sullivan Asia Pacific for Asia Pacific's Most Promising innovative Application/Product for the year 2009, has enabled the Group to further penetrate into the target market both locally and overseas. Further the capital outlay for the R&D department will be provided on an ongoing basis to improve the existing product lines and to adapt to the rapidly changing technology.

The Group envisaged an exciting year ahead with the increase in teaming arrangements with a number of local and international partners who are committed and share our vision to be global player in promoting our products locally and the bigger part of Asia.

Acknowledgement and Appreciation

On behalf of the Board, I wish to express sincere thanks and appreciation to the employees of DVM, customers, shareholders, business partners, technology partners and financiers who have given us their continuing strong support and encouragement. I also wish to record my thanks to my fellow Directors for their invaluable advice and support through out the years.

The Management Team of DVM Technology Berhad

Internal Audit Function

The Board of Directors acknowledged their responsibilities for maintaining the internal audit function system of the group and Company to ensure effectiveness and efficiency of the operations and compliance of the rules and regulations. The internal audit function is designed to meet the needs of respective business units and to manage the risks which they are exposed and the Board recognises that the risks cannot be fully avoided as it is not absolute assurance against material misstatement to counter fraud and error. As such the company has outsourced the internal audit function to an independent accounting firm, who reports directly to the Audit committee of their findings and aimed to minimise and manage the risks. The proposed professional fee is based on the understanding of the work, degree of responsibility, skill involved and the necessary time taken up.

STATEMENT ON INTERNAL CONTROL

Board Responsibility

The Board acknowledges the importance of sound internal control and good risk management practices to good corporate governance. The Board affirms its overall responsibility to maintain and review the adequacy and integrity of the system of internal control.

However, the Board recognises that reviewing the adequacy of the Group's system of internal controls is a concerted and continuous process, designed to manage rather than to eliminate the risk of failure to achieve business objectives. It should be noted that any system could provide only reasonable, and not, absolute assurance against material misstatement or loss.

Risk Assessment

The Board recognises that effective risk management is critical for continuous profitability to enhance shareholders value and good corporate governance.

The top management has continuingly identified, evaluate and manage the significant risks faced by the company. The risks were discussed and reviewed by the board during the quarterly meeting. Currently the role of the Risk management Committee has been undertaken by the Audit Committee which meets quarterly.

Key Control Activities / Processes

The key processes of internal control of the Group include:

- 1. The Board have established delegation of responsibilities to Board Committees, namely Audit Committee, Nomination Committee and Remuneration Committee.
- 2. Within the Group, there are organisation structure with clearly defined lines of responsibility, authority and accountability.
- 3. Executive Directors and management regularly meet and monitor the operational, management issues, financial performance and indicators focusing on the evaluation of applicable risks. Scheduled informal operational and management meetings are held to identify, discuss and resolve business and operational issues. Significant matters identified during these meetings are highlighted to the Board.
- 4. The Group has documented policies, procedures and standards in place to further strengthen the internal control system. These documents will be kept updated in accordance with changes in operating environment.
- 5. The Board and Audit Committee receive and reviews quarterly operating results and annual financial statements.
- 6. Regular training and development programmes are being attended by employees with the objective of enhancing their knowledge and skill competency.

The Board considers the system of internal controls to be at an acceptable level within the context on the business environment and level of operations and activities. The Board and the management continue to take necessary measures to strengthen its internal control environment.

CORPORATE SOCIAL RESPONSIBILITY

DVM being the new signatory of the UN Global Compact Initiative signifies the Group's support for the Global Compact's principles in the areas of human rights, labour, the environment and anti-corruption.

DVM actively pursues the development of a continuous learning and to become a knowledge-based organisation. The Group constantly provides opportunities for employees to enhance job knowledge and develop professional skills, by encouraging employees to undertake various types of training programs sponsored by the company. The Group believes employees well-equipped with confidence are motivated to carry out their duties and responsibilities, subsequently create a sense of mutual accomplishments.

The Group also participates in the initiatives taken by the Government to increase the employment of prospective new graduates by accepting trainees from local colleges and universities for industrial, subsequently considering them for permanent employment.

The Group steps forward and serves the community in which it operates and strives to make positive contribution to the community particular in helping the underprivileged and the less fortunate.

DVM aims for sustainable growth in increasing societal value while reducing environmental footprint. The Group promotes awareness in sustainable resource usage by encouraging employees to recycle used papers. The Group has also implemented the e-leave system to reduce the use of paper-based leave application form. Report on the Financial Statements

We have audited the financial statements of DVM Technology Berhad, which comprise the Statements of Financial Position of the Group and of the Company as at 31 December 2011, and the Statements of Comprehensive Income, Statements of Changes in Equity and Statements of Cash Flows of the Group and of the Company for the financial year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 23 to 63.

Directors' Responsibility for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements that give a true and fair view in accordance with Financial Reporting Standards and the Companies Act 1965 in Malaysia, and for such internal controls as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements have been properly drawn up in accordance with Financial Reporting Standards and the Companies Act 1965 in Malaysia so as to give a true and fair view of the financial position of the Group and of the Company as of 31 December 2011 and of their financial performance and cash flows for the financial year then ended.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act 1965 in Malaysia, we also report the following:-

- a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiary companies in Malaysia of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- b) We are satisfied that the Financial Statements of the subsidiary companies that have been consolidated with the Company's financial statements are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- c) The auditors' reports on the financial statements of the subsidiary companies did not contain any qualification or any adverse comment made under Section 174 (3) of the Act.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

The principal activity of the Company is that of an investment holding company. The principal activities of the subsidiary companies are disclosed in Note 10.

There have been no significant changes in the nature of the principal activities of the Company and of its subsidiary companies during the financial year.

The registered office of the Company is located at No. 3-2, 3rd Mile Square, No. 151, Jalan Kelang Lama, Batu 3 1/2, 58100 Kuala Lumpur.

The principal place of business of the Company is located at Lot 11.3, 11th Floor, Menara Lien Hoe, No. 8, Persiaran Tropicana, Tropicana Golf & Country Resort, 47410 Petaling Jaya, Selangor Darul Ehsan.

The financial statements of the Company have been approved by the Board of Directors in accordance with a resolution of the Directors passed on 30 April 2012.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements of the Group and of the Company have been prepared in accordance with the Companies Act, 1965 and applicable Financial Reporting Standards issued by Malaysian Accounting Standards Board ("MASB").

3. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group are exposed to financial risks arising from their operations and the use of financial instruments. The Group's financial risk management policies seek to ensure that adequate financial resources are available for the development of the Group's business whilst managing its risks. The Group operates within policies that are approved by the Board and the Group's policies are not to engage in speculative transactions.

The main areas of financial risks faced by the Group and the policies in respect of the major areas of treasury activity are set out as follows:-

(a) Credit risk

Credit risk is the risk of a financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group's exposure to credit risk arises primarily from receivables. It is the Group's policy to enter into financial instrument with a diversity of creditworthy counterparties. The Group does not expect to incur material credit losses of its financial assets or other financial instruments.

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group provides services only to recognised and creditworthy third parties. It is the Group's policy that all customers are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

As at the end of the reporting period, the maximum exposure to credit risk arising from receivables is limited to the carrying amounts in the statement of financial position.

With a credit policy in place to ensure the credit risk is monitored on an ongoing basis, management has taken reasonable steps to ensure that receivables that are neither past due nor impaired are stated at their realisable values. The Group uses aging analysis to monitor the credit quality of the receivables. Any receivables having significant balances past due more than credit terms granted are deemed to have higher credit risk, and are monitored individually.

3. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

(a) Credit risk (cont'd)

Financial assets that are neither past due nor impaired and either past due or impaired are disclosed in Note 10 and 13 to the Financial Statements.

In respect of trade and other receivables, the Group is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. Trade receivables consist of a large number of customers in various backgrounds. Based on historical information about customer default rates, management considers the credit quality of trade receivables that are not past due or impaired to be good.

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

(b) Liquidity and cash f ow risks

Liquidity and cash flow risks are the risks that the Group will not be able to meet its financial obligations as they fall due, due to shortage of funds.

In managing its exposures to liquidity and cash flow risks arises principally from its various payables, loans and borrowings, the Group maintains a level of cash and cash equivalents and bank facilities deemed adequate by the management to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities as and when they fall due.

The Group aims to maintain a balance of sufficient cash and deposits and flexibility in funding by keeping diverse sources of committed and uncommitted credit facilities from various banks.

As at 31 December 2011, the Group's and the Company's non-derivative financial liabilities which have contractual maturities (including interest payments) are summarised below:-

(c) Foreign currency risk

The Group is exposed to foreign currency risk as a result of its normal operating activities, where the currency denomination differs from the Group's functional currency, i.e. Ringgit Malaysia (RM). The Group's guideline is to minimise the exposure of foreign currency risk by matching local currency income against local currency costs.

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates.

The Group's fixed rate borrowings are exposed to a risk of change in their fair value due to changes in interest rates. The Group's variable rate borrowings are exposed to a risk of change in cash flows due to changes in interest rates.

The Group's interest rate management objective is to manage the interest expenses consistent with maintaining an acceptable level of exposure to interest rate fluctuation. In order to achieve this objective, the Group targets a mix of fixed and floating debts based on assessment of its existing exposure and desired interest rate profile.

3. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

(d) Interest rate risk (cont'd)

The interest rate profile of the Group's and the Company's significant interest-bearing financial instruments, based on carrying amounts as at the end of the reporting period were as follows:-

	Т	he Group	The Company		
	2011	2010	2011	2010	
	RM	RM	RM	RM	
Fixed rate instruments					
Term loans	11,380,756	17,172,177	1,394,355	1,500,000	
Finance lease liability	54,888	78,380	-	-	
	11,435,644	17,250,557	1,394,355	1,500,000	
Floating rate instruments					
Borrowings	3,090,099	2,816,092	398,250	330,505	

The Group and the Company do not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the end of the reporting period would not affect profit or loss.

The following table illustrates the sensitivity of profit to a reasonably possible change in interest rates of +/-0.5%. These changes are considered to be reasonably possible based on observation of current market conditions. The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant.

		Group Loss for the year		Company for the year
	RM	RM	RM	RM
	+0.5%	-0.5%	+0.5%	-0.5%
Floating rate instruments				
31 December 2011	16,518	(16,518)	1,837	(1,837)
31 December 2010	10,372	(10,372)	1,877	(1,877)

4. CAPITAL MANAGEMENT

The Group's objectives when managing capital is to maintain a strong capital base and safeguard the Group's ability to continue as a going concern, so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Directors monitor and determine to maintain an optimal debt-to-equity ratio that complies with debt covenants and regulatory requirements.

The Group sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debts.

5. ADOPTION OF REVISED FINANCIAL REPORTING STANDARDS ("FRS'")

(i) On 1 January 2011, the Group and the Company adopted the following new and amended FRSs mandatory for annual financial periods beginning on or after 1 January 2011:-

(a)	FRS 3	-	Business Combinations (Revised)
(b)	FRS 127	-	Consolidated and Separate Financial Statements (Revised)
(c)	Amendments to FRS 7	-	Improving Disclosures about Financial Instruments. Amendments relating to the fair value measurement using fair value hierarchy and disclosure of liquidity risk
(d)	Amendments to FRS 101	-	Presentation of Financial Statements. Amendment relating to clarification of statement of changes in equity
(e)	Amendments to FRS 134	-	Interim Financial Reporting. Amendment relating to significant events and transactions

Initial application of the above standards and amendments did not have any material impact on the financial statements of the Group and of the Company.

(ii) Standards issued but not yet effective

New MASB Approved Accounting Standards

To converge with International Financial Reporting Standards ("IFRSs") in 2012, the MASB had on 19 November 2011, issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards ("MFRSs"), which are mandatory for annual financial periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture and IC Interpretation 15 Agreements for Construction of Real Estate, including its parent, significant investor and venture ("Transitioning Entities").

Transitioning Entities will be allowed to defer adoption of the new MFRSs for an additional one year. Consequently, adoption of the MFRSs by Transitioning Entities will be mandatory for annual financial periods beginning on or after 1 January 2013. The Group and the Company does not qualify as Transitioning Entities and are therefore required to adopt the MFRSs for the financial period beginning on or after 1 January 2012. The Group and the Company have not early adopted the MFRS Framework.

In presenting its first MFRS financial statements, the Group and the Company will be required to restate the comparative financial statements to amounts reflecting the application of MFRS Framework. The majority of the adjustments required on transition will be made, retrospectively, against opening retained profits.

The Group and the Company have not completed its quantification of the financial effects of the differences between Financial Reporting Standards ("FRS") and accounting standards under the MFRS Framework and are in the process of assessing the financial effects of the differences. Accordingly, the consolidated financial performance and financial position as disclosed in these financial statements for the financial year ended 31 December 2011 could be different if prepared under the MFRS Framework.

The Group and the Company expect to be in position to fully comply with the requirement of the MFRS Framework for the financial year ending 31 December 2012.

Below are the lists of MFRSs and IC Interpretation issued but not yet effective and have not been early adopted by the Group and the Company:-

5. ADOPTION OF REVISED FINANCIAL REPORTING STANDARDS ("FRS") (CONT'D)

(ii) Standards issued but not yet effective (cont'd)

New MASB Approved Accounting Standards (cont'd)

Below are the lists of MFRSs and IC Interpretation issued but not yet effective and have not been early adopted by the Group and the Company:- (cont'd)

Effective for financial periods beginning on or after 1 January 2015

(a)	Amendments to MFRS 9	-	Financial Instruments (IFRS 9 issued by IASB in November 2009)
(b)	Amendments to MFRS 9	-	Financial Instruments (IFRS 9 issued by IASB in October 2009)

The Group and the Company has not selected which optional exemption from the retrospective application to be applied under MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards. As such, the Directors are unable to anticipate the effects of the adoption of these new MFRSs and IC Int on the financial statements.

A number of new standards, amendments to standards and IC Interpretation are effective for annual periods beginning after 1 January 2013. The Group and the Company do not expect the adoption of these new standards, amendments to standards and IC Interpretation to have a significant effect on the financial statements of the Group and of the Company, except for the followings:-

MFRS 9 Financial Instruments (IFRS 9 issued by IASB in November 2009 and October 2010)

MFRS 9 replaces the parts of FRS 139 that relate to the classification and measurement of financial instruments. It addresses the classification, measurement and recognition of financial assets and financial liabilities with only two classification categories: fair value and amortised cost.

The Group and the Company expect changes to arise from the adoption of MFRS in terms of the classification and measurement of the financial assets. However, the extent of the impact has not been determined.

A number of new standards, amendments to standards and IC Interpretation are effective for annual periods beginning after 1 January 2013. The Group and the Company do not expect the adoption of these new standards, amendments to standards and IC Interpretation to have a significant effect on the financial statements of the Group and of the Company, except for the followings:- (cont'd)

MFRS 10 Consolidated Financial Statements

MFRS 10 supersedes the requirements relating to consolidated financial statements in FRS 127 Consolidated and Separate Financial Statements and IC Int 112 Consolidation – Special Purpose Entities. It revised the definition of control together with accompanying guidance to identify an interest in a subsidiary. However, the requirements and mechanics of consolidation and the accounting for any non-controlling interests and changes in control remain the same.

MFRS 13 Fair Value Measurement

MFRS 13 does not affects which items are required to be fair-valued, but clarifies the definition of fair value and provides related guidance and enhanced the disclosures about fair value measurements. The enhanced disclosure requirements are similar to those in MFRS 7 Financial Instruments: Disclosures", but apply to all assets and liabilities measured at fair value, not just financial ones.

5. ADOPTION OF REVISED FINANCIAL REPORTING STANDARDS ("FRS'') (CONT'D)

(ii) Standards issued but not yet effective (cont'd)

New MASB Approved Accounting Standards (cont'd)

A number of new standards, amendments to standards and IC Interpretation are effective for annual periods beginning after 1 January 2013. The Group and the Company do not expect the adoption of these new standards, amendments to standards and IC Interpretation to have a significant effect on the financial statements of the Group and of the Company, except for the followings:- (cont'd)

MFRS 127 Separate Financial Statements and MFRS 128 Investments in Associates and Joint Ventures

MFRS 127 now only deals with separate financial statements, whereby the consolidated financial statements have been included in the new MFRS 10. MFRS 128 includes investments in associates and investments in joint ventures, to be equity accounted following the issue of MFRS 11.

6. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Group and of the Company have been prepared under the historical cost convention unless otherwise indicated in the summary of the significant accounting policies.

The financial statements are presented in Ringgit Malaysia (RM) which is the Group's and the Company's functional currency.

Investment in Subsidiary Companies

Subsidiary company is a company in which the Company owns, directly or indirectly, more than 50% of the equity share capital and has power to exercise control over the financial and operating policies so as to obtain benefits from their activities.

Investment in subsidiary companies is stated at cost. Where there is an indication of impairment in the value of the investments, the carrying amount of the investments is assessed and written down immediately to its recoverable amount.

The consolidated financial statements incorporated the audited financial statements of the Company and its subsidiary companies as mentioned in Note 10 to the Financial Statements. The subsidiary companies are consolidated on purchase method.

Acquisitions of subsidiaries are accounted for using the purchase method. The purchase method of accounting involves allocating the cost of the acquisition to the fair values of the assets acquired and liabilities and contingent liabilities assumed at the date of acquisition. The cost of acquisition is measured as aggregate of the fair values, at the date of exchange, of the assets given, liabilities incurred or assumed and equity instruments issued, plus any costs directly attributable to the acquisition.

The excess of the consideration paid for the shares in the subsidiary companies over the fair values of the underlying net assets acquired represents goodwill on consolidation. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised but instead, it is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

The excess of the fair values of the underlying net assets acquired over the consideration paid for the shares in the subsidiary companies represents reserve on consolidation and is recognised in the Statements of Comprehensive Income immediately.

6. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Investment in Subsidiary Companies (cont'd)

All inter-company transactions, balances and unrealised gains or losses are eliminated on consolidation and the consolidated financial statements reflect external transactions only.

Non-controlling interests

Non-controlling interests is measured at the non-controlling's share of the post acquisition fair values of the identifiable assets and liabilities of the acquiree as at acquisition date and the non-controlling share of movements in the acquiree's equity since then. Separate disclosure is made for non-controlling interests.

Revenue

Sales of goods are recognised upon delivery of products and customers' acceptance, if any, or performance of services. Revenue represents gross invoiced value of goods sold and services provided net of sales tax, trade discounts and allowances.

Revenue from maintenance fees is recognised in the Statements of Comprehensive Income on a timely basis, by reference to the agreement entered and when the services are rendered.

Management fee of the Company is recognised when services are rendered.

Foreign Currency Conversion

Foreign currency transactions have been translated into Malaysian Ringgit at rates of exchange ruling at the transaction dates. All foreign currency assets and liabilities outstanding at the reporting date are translated into Malaysian Ringgit at the approximate exchange rate ruling as at that date. All exchange gains or losses are dealt with in the Statements of Comprehensive Income.

Employee Benefits

Wages, salaries, paid annual leave, bonuses and non-monetary benefits are accrued in the year in which the associated services are rendered by employees of the Group and of the Company.

The Group and the Company make monthly contribution to the Employees Provident Fund ("EPF"), a statutory contributions plan for all its eligible employees. The Group's and the Company's contribution to EPF, calculated at certain prescribed rates, is charged to the Statements of Comprehensive Income as mentioned in Note 28 and development expenditure as mentioned in Note 11. Once the contributions have been paid, the Group and the Company have no further payment obligations.

The Employee Share Option Scheme ("ESOS") allows the subsidiaries companies' employees to acquire shares of the Company and none of the Company's plan features any options for a cash settlement.

The fair values of the employee services received in exchange for the grant of the share options are recognised as expenses in the Statements of Comprehensive Income over the vesting period of the grant with a corresponding increase in the share option reserve. The fair values of the employee services are measured using intrinsic value, which is the difference between the fair value of the shares to which counterparty has the right to subscribe or which it has the right to receive, and the price the counterparty is required to pay for those shares.

No compensation cost or obligation is recognised. When the options are exercised, equity is increased by the amount of the proceeds received net of any directly attributable transaction costs.

6. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Income Tax/Deferred Tax Liabilities

Significant judgement is involved in determining the provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group and the Company recognise tax liabilities based on estimates of whether additional taxes will be due.

Where the final tax outcome of these matters is different from the amounts that were initially recognised, such difference will impact the income tax and deferred tax provisions in the year in which such determination is made.

Income tax on the profit or loss for the year comprises current tax. Current tax expenses are the expected amount of income taxes payable in respect of the taxable profit for the financial year and are measured using the tax rates that have been enacted by the reporting date.

Deferred tax liabilities and assets are provided for under the liability method at the tax rates that have been enacted or substantively enacted at the reporting date in respect of all temporary differences between the carrying amount of an asset or liability in the Statement of Financial Position and its tax base including unabsorbed tax losses and unutilised capital allowances.

Deferred tax assets are recognised only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date. If it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax assets to be utilised, the carrying amount of the deferred tax assets will be reduced accordingly. When it becomes probable that sufficient taxable profit will be available, such reductions will be reversed to the extent of the taxable profit.

Property, Plant and Equipment and Depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and impairment loss (if any).

Capital work-in-progress refers to assets under construction and is not depreciated until it is completed and ready for commercial utilisation.

Property, plant and equipment are depreciated using the straight-line method at rates calculated to write off the cost of the assets over their estimated useful lives. The annual rates used are as follows:

Computer software and equipment	20%
Furniture, fittings, office equipment and renovation	20%
Motor vehicles	20%

Where parts or an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately.

At each reporting date, the residual values, useful lives and depreciation method of the property, plant and equipment are reviewed, and the effects of any changes are recognised prospectively.

Gain or loss arising from the disposal of an asset is determined as the difference between the estimated net disposal proceeds and the carrying amount of the asset, and is recognised in the Statements of Comprehensive Income.

The carrying amounts of property, plant and equipment are reviewed at each reporting date to determine whether there is any indication of impairment. An impairment loss is recognised whenever the carrying amount of an item of property, plant and equipment exceeds its recoverable amount. Any impairment loss is charged to the Statements of Comprehensive Income.

Investment properties

Investment properties consist of office buildings held for capital appreciation or rental purpose and are not occupied or only an insignificant portion is occupied for use or in the operations of the Group and of the Company.

Investment properties are treated as long-term investments and are measured initially at cost, including transaction costs less any accumulated depreciation and impairment losses. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day servicing of an investment property.

The annual rate used for depreciation is as follow:-

Office building

Development Expenditure

Expenditure on development is charged to the Statements of Comprehensive Income in the year in which it incurred except where a clearly defined project is undertaken and it is reasonably anticipated that development costs will be recovered through future commercial activities. Such development costs are recognised as an intangible asset and amortised on a straight line method over the life of the project from the date of commencement of commercial operation, which is on average of five years. Impairment is assessed whenever there is an indication of impairment and the amortisation period and method are also reviewed at least at each reporting date.

Inventories

Inventories are valued at the lower of cost and net realisable value (determined on first-in-first-out basis). Where necessary, allowance is made for obsolete, slow moving or deteriorated inventories. The cost of trading merchandise comprises the original cost of purchase plus the cost of bringing the inventories to their present location. Net realisable value represents the estimated selling price in the ordinary course of business less estimated selling and distribution costs and all other estimated costs to completion.

Impairment of Non-Financial Assets

The carrying values of assets are reviewed for impairment when there is an indication that the assets might be impaired. Impairment is measured by comparing the carrying values of the assets with their recoverable amounts. The recoverable amount is the higher of net realisable value and value in use, which is measured by reference to discounted future cash flows. Recoverable amounts are estimated for individual assets, or if it is not possible, for the cash-generating unit.

An impairment loss is charged to the Statements of Comprehensive Income immediately.

Subsequent increase in the recoverable amount of an asset is treated as reversal of the previous impairment loss and is recognised to the extent of the carrying amount of the asset that would have been determined (net of amortisation and depreciation) had no impairments loss been recognised. The reversal is recognised in the Statements of Comprehensive Income immediately.

Leases

Finance leases

Lease of property, plant and equipment acquired under hire purchase and finance lease arrangement which transfers substantially all the risks and rewards of ownership to the Group are capitalised. The depreciation policy on these assets is similar to that of the Group's property, plant and equipment depreciation policy.

2%

Leases (cont'd)

Finance leases (cont'd)

Outstanding obligation due under hire purchase and finance lease arrangements after deducting finance expenses are included as liabilities in the financial statements. Finance charges which represent the difference between the total leasing commitments and the fair value of the assets acquired, are recognised as expenses in the Statements of Comprehensive Income over the term of relevant lease so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

Operating leases

Leases where substantially all the risks and rewards of ownership of assets remained with the leasing company are accounted for as operating leases. Rentals payable under operating leases are charged to the profit or loss on a straight-line basis over the relevant lease terms. Benefits received and receivable as an incentive to enter into an operating lease are recognised as a reduction of rental expense over the lease term on a straight-line basis.

Provisions

Provisions are recognised when there is a present obligation (legal or constructive), as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of a provision is the present value of the expenditure expected to be required to settle the obligation.

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale.

Other borrowing costs are expensed in the period in which they incurred. Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds.

Financial Assets

Financial assets are recognised in the statement of financial position when, and only when the Group or the Company becomes a party to the contractual provisions of the financial instrument. When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

The Group and the Company determine the classification of their financial assets at initial recognition.

Financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables.

Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the receivables are derecognised or impaired, and through the amortisation process.

Financial Assets (cont'd)

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

Impairment of Financial Assets

The Group and the Company assess at each reporting date whether there is any objective evidence that a financial asset is impaired.

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Group and the Company consider factors such as the probability of insolvency or significant financial difficulties of the debtors and default or significant delay in payments. Objective evidence of impairment for a portfolio of receivables could include the Group's and the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period and observable changes in national or local economic conditions that correlate with default on receivables.

If any such evidence exists, the amount of impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The impairment loss is recognised in Statements of Comprehensive Income.

The carrying amount of the financial asset is reduced through the use of an allowance account. When a trade receivable becomes uncollectible, it is written off against the allowance account.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in Statement of Comprehensive Income.

Financial Liabilities

Financial liabilities are recognised in the statement of financial position when, and only when the Group or the Company become a party to the contractual provisions of the financial instrument.

The Group's and the Company's financial liabilities consist of borrowings, trade payables and other payables. Borrowings, trade payables and other payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process. A financial liability is derecognised when the obligation under the liability is extinguished.

Statements of Cash Flows

The Group and the Company adopt the indirect method in the preparation of the Statements of Cash Flows.

Cash equivalents are short-term, highly liquid investments with maturities of three months or less from the date of acquisition and are readily convertible to cash with insignificant risk of changes in value.

Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified to makes strategic decisions.

Related Parties

A party is related to an entity if:-

- (i) directly or indirectly through one or more intermediaries, the party:-
 - (1) controls, is controlled by, or is under common control with, the entity (this includes parents, subsidiaries and fellow subsidiaries);
 - (2) has an interest in the entity that gives it significant influence over the entity; or
 - (3) has joint control over the entity;
- (ii) the party is an associate of the entity;
- (iii) the party is a joint venture in which the entity is a venturer;
- (iv) the party is a member of the key management personnel of the entity or its parent;
- (v) the party is a close member of the family of any individual referred to in (i) or (iv);
- (vi) the party is an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (iv) or (v); or
- (vii) the party is a post-employment benefit plan for the benefit of employees of the entity, or of any entity that is a related party of the entity.

Close members of the family of an individual are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the entity.

Equity Instruments

Ordinary shares are classified as equity and are recorded at the nominal value and proceeds in excess of the nominal value of shares issued, if any, are accounted for as share premium. Both ordinary shares and share premium are classified as equity. Dividends on ordinary shares are recognised as liabilities when declared and approved.

7. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

(a) Critical judgements in applying the Group's and the Company's accounting policies

In the process of applying the Group's and the Company's accounting policies, which are described in Note 6 above, management is of the opinion that there are no instances of application of judgement which are expected to have a significant effect on the amounts recognised in the financial statements except for the following:-

Classification between investment properties and owner-occupied properties

The Group and the Company determine whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group and the Company consider whether a property generates cash flows largely independently of the other assets held by the Group and the Company.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately (or leased out separately under a finance lease), the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes.

Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

7. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONT'D)

(a) Critical judgements in applying the Group's and the Company's accounting policies (cont'd)

In the process of applying the Group's and the Company's accounting policies, which are described in Note 6 above, management is of the opinion that there are no instances of application of judgement which are expected to have a significant effect on the amounts recognised in the financial statements except for the following:- (cont'd)

Depreciation of property, plant and equipment and investment properties

Property, plant and equipment and investment properties are depreciated on a straight-line basis and on a reducing balance basis over their estimated useful life. Management estimated the useful life of these assets to be within 5 to 50 years. Changes in the expected level of usage and technological developments could impact the economic useful life and the residual values of these assets, therefore future depreciation charges could be revised.

Deferred tax assets

Deferred tax assets are recognised for all unabsorbed tax losses and unutilised capital allowances to the extent that it is probable that taxable profit will be available against which the losses and capital allowances can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Amortisation of intangible assets

Intangible assets are amortised on straight line basis over their estimated useful life of these assets not exceeding 5 years. Changes in the expected level usage and technological developments could impact the economics useful life and the residual values of these assets, therefore future amortisation charges could be revised.

(b) Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:-

Allowance for impairment

Allowance for impairment is determined using a combination of factors, including the overall quality and aging of receivables, continuing credit evaluation of the customers' financial strength and collateral requirements from customers in certain circumstances. The Directors make allowance for impairment based on its best estimates at the reporting date.

The investment property of the Group and of the Company was charged to a bank as security for bank borrowings obtained by the Company and a subsidiary company, as mentioned in Note 17 and 22.

The fair value of investment property of the Group and of the Company, which comprise office building were estimated by the Directors based on the assessment of the market values for similar properties in the same vicinity, which have been transacted in the open market. Fair value is defined as the estimated amount for which the property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.

The Group has trade receivables amounting to RM4,434,096 (RM10,165,097 in 2010) that are past due at the reporting date but not impaired. No further impairment has been made as the Board is of the view that the amount is recoverable.

The Group's policy is to make full allowance for all trade receivables that are in dispute, under legal action or where recoveries are considered to be doubtful.

13. TRADE RECEIVABLES, OTHER RECEIVABLES, DEPOSITS AND PREPAYMENTS (CONT'D)

The net carrying amount of trade receivables is considered a reasonable approximate of fair value. The maximum exposure to credit risk is the carrying value of each class of receivables mentioned above. Trade receivables that are individually determined to be impaired at the reporting date relate to debtors that are in significant financial difficulties and have defaulted on payments. These receivables are not secured by any collateral or credit enhancements.

Income tax (expense)/credit	(224,642)	5,959	(31,642)	(60,041)												

The Malaysian income tax is calculated at the statutory tax rate of 25% of the estimated taxable profits for the current financial year.

The Group's unabsorbed tax losses and unutilised capital allowances which can be carried forward to offset against future taxable profit are estimated to be RM11,741,000 (RM11,634,000 in 2010) and RM8,500,000 (RM14,313,000 in 2010) respectively.

One of the subsidiary companies, NGC Systems Sdn. Bhd. ("NGC"), has been accorded Multimedia Super Corridor Status and was granted Pioneer Status effective from 20 November 2002, which exempts 100% of the statutory business income from taxation for a period up to 10 years.

However, the above amounts are subject to the approval of the Inland Revenue Board of Malaysia.

A reconciliation of income tax expense applicable to loss before tax at the statutory income tax rate to income tax expense at the effective income tax rate of the Group and of the Company is as follows:

	The Group		The Group The Com		Company

25. INCOME TAX CREDIT/(EXPENSE) (CONT'D)

As mentioned in Note 6, the tax effects of temporary differences, unabsorbed tax losses and unutilised capital allowances which would give rise to net deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, unabsorbed tax losses and unutilised capital allowances can be utilised. As of 31 December 2011, the amount of net deferred tax assets, calculated at the tax rates that have been enacted or substantively enacted at the reporting date which is not recognised in the financial statements due to uncertainty of its realisation, is as follows:
