A2 Significant Accounting Policies (Cont'd)

The adoption of the above accounting standards (including the consequential amendments, if any) is expected to have no material impact on the financial statements upon their initial application except as follows:

MFRS 18 'Presentation and Disclosure in Financial Statements' will replace MFRS 101 'Presentation of Financial Statements' upon its adoption. This new standard aims to enhance the transparency and comparability of financial information by introducing new disclosure requirements. Specifically, it requires that income and expenses be classified into 3 defined categories: "operating", "investing" and "financing" and introduces 2 new subtotals: "operating profit or loss" and "profit or loss before financing and income tax". In addition, MFRS 18 requires the disclosure of management-defined performance measures and sets out principles for the aggregation and disaggregation of information, which will apply to all primary financial statements and the accompanying notes. The statement of financial position and the statement of cash flows will also be affected. The potential impact of the new standard on the financial statements of the Group has yet to be assessed.

B3 Prospects

Based on the independent market research report dated 12 December 2024 as set out in the Prospectus, the growth in the economic performance of Malaysia including the services industry, driven mainly by domestic demand, will provide opportunities for operators in the food and beverage ("F&B") services and distribution and retailing of consumer-branded packaged food industries. In 2025, the Malaysian economy is forecasted to grow between 4.5% to 5.5%, with the services sector forecasted to grow by 5.5%. In addition, the improvement in household spending will also drive demand for F&B services and distribution and retailing of consumer-branded packaged food industries. In 2025, household spending is projected to expand at 5.9% compared to an estimated growth of 5.5% in 2024.

In these respects, taking into the growth opportunities for operators in this industry, the Group will focus on expanding the business domestically by setting up new head office, central kitchen and warehouse, new cafes in various states within Malaysia, extending the product range for our brands of packaged food as well as setting up of new specialty retail stores for our brands of packaged food. In addition, the Group also plan to scale the cafe chain operations by introducing our Oriental Kopi cafes in selected foreign countries to increase geographic presence.

Premised the above, the Group's prospects remain positive taking into consideration the Group's competitive advantages, business strategies and favourable market opportunities in F&B services and distribution and retailing of consumer-branded packaged food industries. Given these factors, the Group remains optimistic about the outlook for the upcoming financial year and expects continued growth in both revenue and earnings.
