## 9MFY25 below expectations

MRCB's 9MFY25 core PATAMI of RM6.2m fell below our and consensus expectations. Negative deviation came from slow billings at its construction & property segments. Unbilled orderbook stands at RM6.0bn post converting RM5.5bn wins this year. Outstanding tenders remain sizable at RM6.9bn. Launches for FY25 totalled hit RM2.1bn. Cut FY25f/26f/27f core PATAMI by -51.6%/-15.0%/-14.3%. Maintain BUY with lower SOP-driven TP of RM0.64.

**Below expectations.** MRCB reported 3QFY25 results with revenue of RM310.0m (4.1% QoQ, -27.3% YoY) and core PATAMI of RM5.1m (-66.1% QoQ, -42.3% YoY). This brings 9MFY25 core PATAMI to RM6.2m, decreasing by -90.2%. Results were below our and consensus expectations at 21%/15%. Negative deviation was due to weaker than expected billings from construction and property. No adjustments made in deriving core numbers.

**Dividends.** No DPS declared.

**QoQ.** The company's performance was significantly weaker sequentially due to high effective tax rates seen in the quarter (vs tax credit of RM11.5m in 2QFY25).

**YoY.** Core PATAMI declined by -42.3% dragged by slower construction segment as the company's key project, LRT3 approaches completion (99% physical completion) while newly secured projects worth RM5.5bn in FY25 YTD remains in early stages of execution.

**YTD.** Similarly, MRCB's weaker performance can be attributed to substantial completion for LRT3 Phase 1 while newly secured projects gestate.

**Construction.** Outstanding active orderbook stands at a sizable RM6.0bn. MRCB has converted on three projects this year being: (i) LRT3 reinstatement – RM2.47bn (ii) Shah Alam Stadium redevelopment – RM2.94bn and (iii) PLUS highway upgrading in Johor – RM160.1m. At YTD wins of RM5.5bn, this is near our RM6bn assumption for FY25 which could be surpassed should it convert some of outstanding RM6.9bn worth of tenders. MRCB's current tender book does not include its KL Sentral redevelopment project (RM1bn).

**Property.** MRCB's sales as of July-25 amounted to RM837m, on track towards our RM1bn assumption. We gather that its Australian projects are seeing strong demand. One such development, MARIS, Southport (GDV: RM620m) was launched in June-25 and has achieved a take-up rate of 76% (Sept-25). Similar demand strength is seen at VISTA another project in the proximity that has benefitted from consistent upward revision in prices. The company has launched RM2.1bn worth of projects this year Given foreign heavy launch plans, segmental earnings delivery in FY25 should remain lacklustre.

**Forecast.** Cut FY25f/26f/27f core PATAMI by -51.6%/-15.0%/-14.3% adjusting lower billings and margins.

**Maintain BUY, TP: RM0.64.** Maintain BUY with lower SOP driven TP of RM0.64 post earnings cut. MRCB benefits from better project pipeline visibility and value unlocking initiatives. Key upside catalysts: contract wins, and HSR newsflow; Downside risks: margins, execution and property sales slowdown.
