Corporate Update

4QFY25 Results Review:

Lifted by Stronger Construction Division

Maintain BUY. We reiterate our **BUY** recommendation on MRCB with an unchanged **TP** of **RM0.45**, valuing the stock at a P/B ratio of 0.54x, which is +1SD above its three-year mean. We anticipate further momentum from major civil infrastructure works such as the five reinstated LRT3 stations and the Shah Alam Sports Complex in FY26. Beyond transportation, MRCB is actively pursuing climate adaptation initiatives, including flood mitigation, renewable energy, and water infrastructure projects, reinforcing its long-term growth prospects.

Above expectations. Malaysian Resources Corporation Bhd (MRCB) saw its revenue inching upwards to RM371.8m (+0.3%yoy) in 4QFY25 while its core earnings rebounded strongly to RM17.3m. While property development and investments slipped further into losses, the stronger bottom line was aided by a stronger engineering and construction division. The cumulative 12MFY25 saw core earnings declining -30.0% to RM44.6m, which was +18.0% above our estimates and +38.1% above consensus.

Engineering, construction and environment. The division saw its PBT grew 3.8x yoy to RM81.6m during the quarter, led by stronger progress in ongoing projects. For the cumulative 12 months however, PBT declined -29.0% to RM118.1m, mainly due to lower contributions from LRT3 as it nears completion. The construction of the Shah Alam Sports Complex and the five reinstated LRT3 stations are still in the early stages.

Property Development & Investment. The division sank further into the red at -RM29.9m (4QFY24: -RM0.8m) during the quarter, mainly due to the depleting inventory of completed units, which resulted in lower sales. The full 12MFY25 however, saw lower pre-tax losses of -RM9.8m (FY24: -RM-17.6m), aided by reversal of impairment losses and write-backs of cost provisions that were no longer required. As at Dec-25, unbilled sales from ongoing projects stood at RM1.40b, about 96% of which are made up by the Vista and Maris projects in Gold Coast, which will only be recognised upon physical completion and the handover of units to purchasers. MRCB has RM2.2b of planned launches in 2026 in terms of GDV,

Surpassed RM5.0b replenishment target. MRCB currently has an outstanding construction order book of RM5.7b, which consists mainly of infrastructure projects. The group surpassed its FY25 replenishment target of RM5.0b, securing RM5.5b of new wins, such as the five reinstated LRT3 stations (RM2.4b) and Shah Alam Sports Complex (RM2.9b). The RM1.0b redevelopment of the KL Sentral Station is still under negotiation and the tender book currently stands at RM8.4b. MRCB is also involved in several pre-qualification tenders for projects, such as flood mitigation, road infrastructure, sewerage and wastewater and industrial infrastructure.

Earnings estimates and TP. We are making no changes to our FY26E/FY27F earnings estimates and we maintain our **TP** of **RM0.45**, valuing the stock at a P/B ratio of 0.54x, which is +1SD above its three-year mean.
