

## BRIEFS

### MSC LEASES LAND FROM MB INC

**PETALING JAYA:** Malaysia Smelting Corp Bhd (MSC) will lease two parcels of land from Menteri Besar Incorporated (Perak) (MB Inc) for dumping overburden, tailings and slime arising from on-going tin mining activities. In a filing with Bursa Malaysia yesterday, the group said its wholly owned subsidiary Rahman Hydraulic Tin Sdn Bhd (RHT) has entered into a memorandum of understanding (MoU) with MB Inc for the leasing. The two parcels of land measure 100 acres and 323 acres respectively, and are located adjacent to the southern boundary of RHT's existing tin mining leases in Klian Intan, Perak. MSC CEO Datuk Dr Patrick Yong said the MoU would pave the way for the group to commence strategic negotiations on expanding its tin mining leases as well as to undertake any other joint efforts with MB Inc.
