### A11. Event After the Reporting Period

#### PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134

### A12. Changes in the Composition of the Group

There were no changes in the composition of the Group during the current quarter and financial year-to-date ended 30 September 2025.

#### A13. Changes in Contingent Liabilities and Contingent Assets

There were no changes in contingent liabilities or contingent assets during the current quarter and financial year-to-date ended 30 September 2025 except for the following:

i. In respect of the suit against the Company with claim amount of RM2,152,533 for the purported breach of a sale and purchase agreement to supply 60,000 MT of tin slag, the original trial dates were fixed for 27-28 August 2025. However, trial has been postponed to 4 and 5 February 2026.

The Company's legal counsel is of the view that the Company has an arguable case to contend that it did not breach the Agreement and a sufficiently reliable estimate of the financial effect cannot be made due to the lack of particulars and evidence in respect of the claim.

ii. On 27 June 2024, the Inland Revenue Board ("IRB") issued Notices of Additional Assessment with penalties for YA 2019, YA 2021 and YA 2022 ("Notices") totalling RM31.3 million to Rahman Hydraulic Tin Sdn. Bhd. ("RHT"), an 80% owned subsidiary of the Company. The Notices were raised pursuant to the disallowance of past tribute payments incurred from YA 2010 to YA 2017, and related legal and professional fees incurred by RHT in YA 2021 and YA 2022.

The subsidiary company had earlier lodged the Notice of Appeal (Form Q) to the Special Commissioners of IRB on 25 July 2024, and the matter was referred to IRB's Dispute Resolution Panel for both parties to negotiate for an amicable settlement.

Subsequently, IRB issued Notices of Reduced Assessment for YA 2019, YA 2021 and YA 2022 on 21 May 2025, effectively reducing the additional tax from RM31.3 million to RM14.1 million. The tax impact has been adjusted to the Interim Financial Report in 1Q 2025.

The Notices of Reduced Assessment for YA 2019, YA 2021 and YA 2022 has been fully settled and the Notice of Appeal (Form Q) has been withdrawn.

### A16. Fair Value of Assets and Liabilities

The Group classified fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices), and
- Level 3 Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

The Group held the following financial assets and liabilities that are measured at fair value:

The Group recorded revenue of RM529.5 million in 3Q 2025 as compared with RM379.0 million in 2Q 2025. #### B10. Review of Performance (cont'd)

## PART B: EXPLANATORY NOTES PURSUANT TO MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

#### 3Q 2025 vs. 3Q 2024 (YoY)

Group revenue was RM529.5 million in 3Q 2025 as compared with RM470.1 million in 3Q 2024. This was mainly due to higher sales quantity of refined tin and tin bearing intermediates, and higher average tin price per metric tonne of RM143,500 (3Q 2025) as compared with RM141,500 (3Q 2024).

The Group recorded a profit before tax of RM35.3 million in 3Q 2025 as compared with RM27.5 million in 3Q 2024.

The tin smelting segment recorded a loss before tax of RM1.5 million in 3Q 2025 as compared with a loss before tax of RM13.7 million in 3Q 2024. The relatively better smelting performance in 3Q 2025 was mainly due to higher sale and encashment of tin intermediates with higher margin, while 3Q 2024 performance was affected by trading and foreign exchange losses from the impact of the strengthened Ringgit against the US Dollar in August and September 2024.

The tin mining segment recorded a profit before tax of RM32.9 million in 3Q 2025 as compared with RM30.5 million in 3Q 2024. This was mainly due to higher tin production quantity and higher average tin price as stated above.

The Group's share of results of associate and joint venture recorded a net share profit of RM0.5 million in 3Q 2025 as compared with RM0.3 million in 3Q 2024.

#### **B11. Prospects**

Sustained growth in demand for tin from clean energy sector, electronics, artificial intelligence infrastructure, and defence technologies is expected to outpace supply, leaving markets structurally tight and supply chains vulnerable to disruption. Output of tin metal may also be constrained by unexpected regulatory changes and policy shifts in certain output countries. Notably recent action in Indonesia's tin sector to curb illegal mining, could also weigh on mining output.

The Group remains steadfast to emphasize on business competitiveness, operational efficiencies, improvements on operations, technology, manpower, logistics and potential new business developments in its smelting and mining segments.

The closure and decommissioning of its old smelter plant at Butterworth is currently ongoing. The Group expects cost savings from the closure, while benefiting from higher efficiencies of the PI plant with lower operational and manpower costs. In addition, the PI smelter plant has an overall smaller carbon footprint as it uses natural gas and generates renewal energy from its rooftop solar panels.

For the tin mining segment, the Group continues to focus on improving and increasing daily mining output and overall mining productivity. This includes expanding its mining activities and mine resources, adopting new cost-effective mining, modernised processing methodology to scavenge tin from low grade materials, and participating in potential new mining joint ventures.
