Explanation on application of the practice	:	<p>With leveraging on technology advancement, the 50th AGM was held virtually through electronic live streaming and online remote voting. The electronic means of conducting the AGM on a virtual basis facilitate and enable all shareholders to participate fully in the AGM proceedings without the need to be physically present at the AGM.</p> <p>To ensure a smooth broadcast of the AGM, the Company conducted a dry run prior to the 50th AGM to ensure that the required infrastructure, equipment and proper settings were in place for seamless meeting proceedings.</p> <p>With the RPV facilities, shareholders were able to exercise their right to participate at the AGM (including posing questions to the Board/ Management) and vote by registering themselves before the closing date as stipulated in the Administrative Guide for AGM. If a member is unable to attend the AGM, he/she may appoint a proxy or the Chairman of the meeting as his/her proxy to attend the AGM via the RPV facilities.</p> <p>The Poll Administrator's AGM solution has an application/feature called the Moderator Link to capture questions posed by the shareholders during the AGM and transmit the questions to the Directors and Management for action and response, prior to and during the 50th AGM. Similarly, the same application/feature was used by the Company for the same questions posed by shareholders/proxies to be made visible to all meeting participants during the AGM.</p> <p>With the use of Moderator Link, the Chairman managed the questions & answers (Q&A) session smoothly and efficiently. Each question was displayed on the screen as and when the Chairman or other Directors provided their responses to the respective questions in an orderly manner.</p>
