B3 Prospects

Malaysia's economy is forecast to expand between 4.8% and 5.3% in 2024. Growth will be propelled by robust domestic demand and recovery in exports. Consumer spending is expected to remain resilient, supported by improvements in labour market conditions and vibrant tourism-related activities. The growth in 2025 is projected between 4.5% and 5.5%, supported by a resilient external sector. Additionally, robust domestic demand, fuelled by strong private sector expenditure, will support the expansion through continued implementation of key national master plans and ongoing initiatives. A pertinent initiative which is Government-linked Enterprises Activation and Reform Programme (GEAR-uP), will synergise efforts across government-linked entities to catalyse growth in high growth sectors, encompassing energy transition, advanced manufacturing, food security, healthcare, Islamic finance and biopharmaceuticals.

B3 Prospects (cont'd)

Based on the independent market research report dated 3 September 2024 as set out in the Prospectus of the Company dated 27 September 2024, the number of Malaysians living with non-communicable diseases ("NCDs"), also known as chronic diseases, have been increasing over the years. As a result of the growing trend of NCDs and increased intention to adopt healthier lifestyles, Malaysians may be more likely to resort to increasing their intake of dietary supplements and fortified food and beverages ("F&B") to supplement their nutritional intake. In addition, economic growth and increasing disposable income of population which translates to improving standards of living and increase in the number of affluent individuals with greater purchasing power signifies growth potential for fortified F&B and dietary supplements. Furthermore, the urbanisation and ageing population is believed to drive the demand for fortified F&B and dietary supplements while the awareness on the benefits of fortified F&B and dietary supplement is expected to be supported by the prevalence of social media marketing.

As disclosed in Section 7.14 of the Prospectus dated 27 September 2024, the Group has obtained the necessary approvals for the development order and building plan for the construction of a new factory in Serendah ("**New Serendah Factory**"). The construction has commenced in January 2024 and is expected to be completed in the second half of 2025, with business operations slated to begin in 2026. The construction of the New Serendah Factory is in line with the Group's plans to expand its manufacturing capacity. As part of this initiative, the Group will acquire new machinery and establish a laboratory dedicated to product development. This facility will enhance the Group's capabilities in developing new products and advancing in-house probiotic strain culturing.

Premised the above, the Group's prospects are positive taking into consideration the Group's competitive advantages, business strategies and favourable market conditions in the fortified F&B and dietary supplement industry.

B9 Material litigations

On 25 October 2024, the Company announced a dispute over the alleged breach of contract and infringement of intellectual property rights by Nature One Dairy (Hong Kong) Limited ("**NOD**").

On 4 March 2025, Orient Biotech Sdn. Bhd., a wholly-owned subsidiary of the Company received a letter from the solicitors acting for NOD accompanied by a sealed Writ of Summons and a Statement of Claim, both dated 28 February 2025 and issued by the Supreme Court of Victoria, Melbourne, Australia ("Court"). The aforementioned Statement of Claim was incomplete and subsequently, the Writ of Summons and revised Statement of Claim, both dated 28 February 2025 were received on 5 March 2025.

Pursuant to the Statement of Claim, NOD has claimed the following: -

- i. damages:
- ii. at NOD's election, an account of profits or equitable compensation;
- iii. interest pursuant to s101 of the Supreme Court Act 1986; and
- iv. such other order(s) as to the Court seems appropriate.

As at the date of the announcement, the Board would not be able to ascertain the financial and operational impacts as well as the potential liabilities arising from the Writ of Summons and Statement of Claim as no specific amount demanded was stated therein.

The Company will defend NOD's claim on the basis that their claims of loss of sales and loss of reputation are not attributable to the Company as the milk powder product that the Group manufactured for a particular new customer is different from NOD's products.

The Company had on 16 April 2025 filed an appearance in defence of the proceeding.
