NOTES TO THE QUARTERLY REPORT

PART A – EXPLANATORY NOTES PURSUANT TO THE FINANCIAL REPORTING STANDARDS ("FRS") 134: INTERIM FINANCIAL REPORTING

A1. Basis Of Preparation

The interim financial statements are unaudited and have been prepared in accordance with FRS 134: Interim Financial Reporting and Appendix 9B of the ACE Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

The accounting policies and methods of computation adopted by Oversea Enterprise Berhad ("Oversea" or the "Company") and its subsidiaries ("Group") for these interim financial statements are in compliance with the new and revised FRSs issued by the Malaysian Accounting Standards Board.

The interim financial statements should be read in conjunction with the audited financial statement for year ended 31 December 2010 and the accompanying explanatory notes attached to the interim financial report.

A2. Adoption Of New And Revised Accounting Policies

The accounting policies and methods of computation adopted by the Group in these condensed consolidated interim financial statements are consistent with those adopted in the condensed consolidated financial statements for the year ended 31 December 2010, except for adoption of the following new/revised FRSs effective for financial period beginning 1 July 2010, 1 January 2011 and 1 January 2012:

(a) During the current financial period, the Group has adopted the following new accounting standards and interpretations (including the consequential amendments):-

FRSs and IC Interpretations (including the Consequential Amendments)

FRS 1 (Revised) First-time Adoption of Financial Reporting Standards

FRS 3 (Revised) Business Combinations

FRS 127 (Revised) Consolidated and Separate Financial Statements

Amendments to FRS 1 (Revised): Limited Exemption from Comparative FRS 7 Disclosures for First-time Adopters

Amendments to FRS 1 (Revised): Additional Exemptions for First-time Adopters

Amendments to FRS 2: Scope of FRS 2 and FRS 3 (Revised)

Amendments to FRS 2: Group Cash-settled Share-based Payment Transactions

Amendments to FRS 5: Plan to Sell the Controlling Interest in a Subsidiary

Amendments to FRS 7: Improving Disclosures about Financial Instruments

Amendments to FRS 138: Consequential Amendments Arising from FRS 3 (Revised)

- IC Interpretation 4 Determining Whether An Arrangement Contains a Lease
- IC Interpretation 12 Service Concession Arrangements
- IC Interpretation 16 Hedges of a Net Investment in a Foreign Operation
- IC Interpretation 17 Distributions of Non-cash Assets to Owners
- IC Interpretation 18 Transfers of Assets from Customers

Amendments to IC Interpretation 9: Scope of IC Interpretation 9 and FRS 3 (Revised)

Annual Improvement to FRSs (2010)

- (b) The adoption of the above accounting standards and interpretations (including the consequential amendments) did not have any material impact on the Group's financial statements, other than the following:-
 - (i) FRS 3 (Revised) introduces significant changes to the accounting for business combinations, both at the acquisition date and post acquisition, and requires greater use of fair values. In addition, all transaction costs, other than share and debt issue costs, will be expensed as incurred.
 - This revised standard has been applied prospectively and therefore there will be no financial impact on the financial statements of the Group for the current financial year but may impact the accounting for future transactions or arrangements.
 - (ii) FRS 127 (Revised) requires accounting for changes in ownership interests by the group in a subsidiary, whilst maintaining control, to be recognised as an equity transaction. When the group loses control of a subsidiary, any interest retained in the former subsidiary will be measured at fair value with the gain or loss recognised in profit or loss. The revised standard also requires all losses attributable to the noncontrolling interests to be absorbed by the non-controlling interests instead of by the parent.

The Group has applied the major changes of FRS 127 (Revised) prospectively and therefore there will be no financial impact on the financial statements of the Group for the current financial year but may impact the accounting for future transactions or arrangements.

- (iii) Amendments to FRS 7 expand the disclosure requirements in respect of fair value measurements and liquidity risk. In particular, the amendments require additional disclosure of fair value measurements by level of a fair value measurement hierarchy.
- (iv) Annual Improvement to FRSs (2010) contain amendments to 11 accounting standards that result in accounting changes for presentation, recognition or measurement purposes. These amendments have no material impact on the financial statements of the Group upon their initial application.

The amendments to FRS 101 (Revised) clarify that an entity may choose to present the analysis of items of other comprehensive income either in the statement of changes in equity or in the notes to the financial statements. The Group has chosen to present the items of other comprehensive income in the statements of changes in equity.

(c) The Group has not applied in advance the following accounting standards and interpretations (including the consequential amendments) that have been issued by the Malaysian Accounting Standards Board (MASB) but are not yet effective for the current financial period

PART B – EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE ACE MARKET LISTING REQUIREMENTS OF BURSA SECURITIES

B1. Review Of Performance

The Group's profit before tax ("PBT") for the fifth quarter ended 31 March 2012 of RM1.543 million decreased by approximately 27.6% as compared to the previous year's corresponding period PBT of RM2.131 million. The decrease in PBT was mainly due to higher administration and other operating expenses incurred during the period. The increase in expenses incurred was due to higher branding and consultation fees for the Company's operations amounting to RM0.235 million, charges incurred for early settlement of term loan upon disposal of properties of approximately RM0.088 million, goodwill written off amounting to RM0.092 million and provisional of audit fees of approximately RM0.160 million.

There were no financial statements prepared for the comparative 15 months financial period to compare against the current 15 months period ended 31 March 2012. Therefore, the performance of the respective operating segments for the 15 months period ended 31 March 2012 shall be analysed as follows:

1) Restaurant

The restaurant segment received additional revenue contributions from the two (2) new subsidiaries that were incorporated overseas during the period, namely Grand Ocean Restaurant Private Limited (in Singapore) and Ipoh Group Limited (in Hong Kong). The income contribution from foreign operations contributed approximately RM7.339 million, representing 8.43% to the Group's revenue for the 15 months period ended 31 March 2012.

2) Manufacturing

Contribution from this segment remained low during the financial period under review. This is due to the stringent policies implemented with regards to the selection of distributors and agents for the sale of moon cakes. However, the Company was able to mitigate this by reducing the number of moon cake stocks returned as well as limiting the discounts allowed for moon cake sales.

3) Others

Gross income from the others segment mainly comprises central purchasing of high value stocks for the Group and all transactions are eliminated for consolidation purpose. However, the loss before tax in the segmental reporting mainly arose from general and administrative expenses at holdings level.

B2. Comparison To The Results Of The Previous Quarter

The revenue for the fifth quarter ended 31 March 2012 increased by 32% to RM18.80 million from RM14.27 million in Q4 2011 mainly due to the revenue generated from restaurant segment. This is mainly due to higher banquet sales during the Chinese New Year festive season.

The Group recorded a PBT of RM1.54 million for fifth quarter ended 31 March 2012 as compared to loss before tax of RM1.62 million in Q4 2011. This was mainly due increased in sales and better cost control which resulted in better gross margin. However, the improvement in revenue mentioned above was mitigated by the additional expenses incurred for Ipoh Group Limited (Hong Kong) amounting to RM0.28 million.

B3. Current Year Prospects

The Group's new restaurant located at Shaw Tower, Singapore commenced operations on 30 January 2011. Moving forward, the Group expects stronger revenue contribution from this restaurant. For the fifth quarter ended 31 March 2012, the Singapore operation had recorded lower loss before tax of approximately RM0.15 million as compared to a loss before tax of RM0.56 million in Q4 2011, mainly due to improved revenue contribution and more stringent operational cost control.

The Group had revamped its marketing plan through rebranding, advertisement and partnership promotion with various institutions, investment in new software and hardware for better operational information and analysis, setting up of new attractive menu package, and more stringent operational cost control. These measures are taken to garner higher customer awareness and to enable the Group to continue offering its services at competitive prices amidst intense competition in the market.

Barring any unforeseen circumstances on its business operations, the Board remains positive on its local and oversea business and the overall results of the Group for the financial year ending 31 March 2013.

B4. Profit Forecast And Profit Estimate

The Group has not issued any profit forecast or profit estimate for the current financial quarter under review or in any public documents.

B5. Taxation

	Current quarter ended 31 March 2012 RM' 000	15 months to-date 31 March 2012 RM' 000
Income tax:- Current period	819	1,757

The effective tax rate for current quarter and the current year to date is higher than the statutory rate of 25%. This arose as the Company did not qualify for group tax relief for losses incurred in the restaurant segment itself to offset against profit earned in the same segment, resulting in higher effective rate at consolidation level.

B6. Notes to the Statement of Comprehensive Income

	Current quarter ended 31 March 2012 RM' 000	15 months to-date 31 March 2012 RM' 000
Interest income	(91)	(373)
Other income including investment income	(1,637)	(7,256)
