B. ADDITIONAL INFORMATION REQUIRED BY THE ACE MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONTINUED)

B1. Review of Performance (Continued)

The Group registered profit before tax of RM0.4 million for current financial quarter under review after deducting administrative expenses of RM3.3 million. The administrative expenses mainly consist of employee-related costs, directors' remuneration, upkeep and maintenance expenses, depreciation of property, plant and equipment and amortisation of right-of-use assets.

There are no comparative figures for the preceding corresponding quarter's results as this is the first interim financial report being announced by the Company in compliance with the Listing Requirements.

B2. Comparison with Immediate Preceding Quarter's Results

There are no comparative figures for the immediate preceding quarter as this is the first interim financial report announced by the Company in compliance with the Listing Requirements.

B3. Prospects of the Group

Based on the Independent Market Researcher Report by Smith Zander International Sdn Bhd as set out in Section 8 of the Prospectus ("**IMR Report**"), the logistics and warehousing industry plays an important role in supporting trade activities, as the transportation of goods across domestic and international borders accelerates convergence with global supply chains and helps key export industries connect with international markets. Malaysia's external trade (comprising total imports and total exports) increased from RM1.78 trillion in 2020 to RM2.84 trillion in 2022, at a compound annual growth rate ("**CAGR**") of 26.31%. Such recovery in Malaysia's external trade contributed to increased demand for logistics and warehousing services, including demand for trucking services. In 2023, Malaysia's external trade recorded a 7.04% year-on-year decline to RM2.64 trillion. This was in tandem with slower global demand, lower commodity prices, geopolitical uncertainties, high inflation rate, downcycle in the semiconductor sector and high base effect in 2022. According to the Economic Outlook 2024 published by Ministry of Finance Malaysia, Malaysia's external trade is forecast to increase by 5.00% in 2024, which is in line with the anticipated recovery of global trade at 3.30% as announced by the World Trade Organization.

Within the manufacturing sector, the electrical and electronics ("**E&E**") industry is the largest sub-segment with a contribution of approximately 27.01% to the gross domestic product from the manufacturing sector in 2023, thereby being acknowledged as one of the pillars of Malaysia's economy. Additionally, export of E&E products is also one of the major factors driving the recovery of Malaysia's external trade in 2023, with its contribution to total exports at approximately 40.24% and to total external trade at 21.80%. The anticipated growth of the E&E industry and the exports of E&E products will not only drive the logistics and warehousing industry as a whole, but will particularly benefit the air freight industry as E&E products are generally high-value items and commonly transported through air freight. This will in turn create demand for trucking services, including airport-to-airport road feeder services and point-to-point trucking services, to facilitate the movement of E&E products between and to/from airports.

The e-commerce market in Malaysia, represented by sales value, grew from RM10.29 billion in 2018 to RM31.09 billion in 2023 at a CAGR of 24.75%. As consumers continue adopting online shopping despite the subsidence of the COVID-19 pandemic, the demand for trucking services is expected to increase to support the continued growth in e-commerce activities.

B. ADDITIONAL INFORMATION REQUIRED BY THE ACE MARKET LISTING REQUIREMENTS OF BURSA SECURITIES (CONTINUED)

B3. Prospects of the Group (Continued)

Premised on the above and taking into consideration of the competitive strengths and business strategies as set out in Section 7.14 and 7.15 of the Prospectus respectively, the Board of Directors of the Company ("**Board**") believes that its prospects in the logistics and distribution industry as well as the trucking industry are favourable.

B4. Variance of actual profits from forecast profits

The Group did not issue any profit forecast or profit guarantee in the current quarter under review and period-to-date.

B5. Taxation
