## 4Q18: Within expectations

### Maintain HOLD

SCG's FY18 net profit of MYR145m came in within expectations. The YoY growth was supported by the construction division, which more than offset the weak showing of the precast division. We make no change to our earnings forecasts having already factored in the delay in recovery at precast. An interim dividend of 3.5sen was declared for 4Q18, bring its total payout to 7sen for FY18, a 63% DPR, above its minimum 35%. No change to our HOLD call and MYR1.70 TP pegged to 14x FY19 PER (-1 SD).

### Construction continues to drive earnings

4Q18 net profit of MYR37m (+27% YoY, flat QoQ) brought FY18 net profit to MYR145m (+9% YoY), meeting ours/consensus full-year forecasts. YoY growth in FY18 was largely supported by the construction division on the back of higher works recognition (+10% YoY) from key projects such as the KVMRT 2, Parcel F in Putrajaya and the PPA1M project in Kota Bahru. EBIT margin for the division was also higher by 1.4ppts YoY in FY18, contributed also by the finalization of accounts for a completed project.

### Growth hampered by weak precast division

As highlighted in our update note on 20 Feb 2019, the precast division continued to remain weak, reporting wider QoQ loss at the operating level of MYR2.8m in 4Q18 (+49% QoQ; EBIT of MYR5.6m in 4Q17). This is a result of current projects being recognized yielding lower margins. SCG has also guided that recovery is only expected in FY20E as the higher margin projects secured in FY18 will only significantly contribute then.

### Flattish growth into FY19E

Our earnings forecasts are unchanged, expecting just a 5% growth into FY19E on the back of delayed recovery in precast. With MYR781m of new jobs YTD Feb 2019 (FY18: MYR1.55b (incl. precast)), SCG's internal job win target of MYR1.5b (incl. precast) for FY19 is very achievable. Potential job wins could from property developments within Sunway Group and a property/hospital project in Myanmar. Orderbook wildcard could stem from the Large Scale Solar 3 (LSS 3), government hospital projects and the Subang Aerotech Park by Khazanah. We have already imputed MYR1.5b/MYR200m p.a. of job wins for construction/precast respectively for FY19E/FY20E and MYR1b/MYR200m for FY21E.

## Risk statement

There are several risk factors for our earnings estimates, price target and rating for SCG. Slower-than-expected work progress at major construction projects may affect timing of earnings recognition. The review of major infrastructure projects by the new government could also delay implementation of new projects affecting future orderbook replenishment. At the precast segment, any significant increase in steel prices and stiffer competition could also affect project margins.
