Suncon's Q3 Profit Jumps 81% To RM83 Million, Declares 29.25 sen

By Editor November 20, 2025

Sunway Construction Group Berhad announced its financial results for the third quarter ended 30 September 2025, recording revenue exceeding RM1.4 billion for the fourth consecutive quarter. The Group achieved a 67.0% increase in revenue to RM1,445.2 million in Q3 FY2025, accompanied by a corresponding 80.2% surge in profit before tax to RM127.1 million. PAT was also higher at RM83 million compared to RM46 million achieved in the same quarter in 2024.

As the Group's core earnings contributor, the construction segment continued to drive growth in the current quarter. Revenue climbed 66.8% to RM1,387.4 million compared to RM831.8 million in the corresponding quarter last year, while PBT surged 79.7% to RM123.1 million. This remarkable performance was fueled by accelerated progress across various data centre projects and projects undertaken within the Sunway Group.

For the current quarter, the Group declared a 29.25 sen dividend, comprising a third interim single-tier dividend of 6.25 sen and a special dividend of 23.00 sen. Including the earlier interim dividends, the cumulative dividend for the financial year ending 31 December 2025 stands at 41.50 sen per ordinary share. Sunway Construction Group Managing Director, Mr. Liew Kok Wing, commented,

“Sunway Construction achieved a record nine-month results, with revenue and PBT doubling over the period. This achievement reflects the Group's strong execution capabilities in the Advanced Technology Facilities segment, having delivered over 144 MW of data centre capacity, and currently managing eight ongoing projects for major global technology corporations.”
