### Revenue (RM'mil)

▼ **31%**

- The decrease in revenue in current quarter was mainly attributable to the construction segment, as revenue in the corresponding quarter in the preceding financial year was driven by the accelerated progress of several data centre projects.

### PBT (RM'mil)

▲ **7%**

- Higher profit before tax in current quarter was driven by both the construction and precast segments. The increase in PBT was mainly attributable to a more favourable project mix, with a higher proportion of Advanced Technology Facilities (ATF) projects.

### Q2 Year-on-Year Performance

Construction segment recorded revenue of RM941.6 million and profit before tax of RM124.8 million compared to revenue of RM1,433.5 million and profit before tax of RM121.4 million reported in the corresponding quarter of the preceding financial year. The higher turnover in the corresponding quarter of the preceding financial year was primarily attributable to the accelerated progress of several data centre projects. Despite this, the Group recorded a higher profit margin in current quarter, mainly attributable to a more favourable project mix, with a higher proportion of ATF projects.

## Precast

### Q2 Year-on-Year Performance

Precast segment recorded revenue of RM76.1 million and profit before tax of RM6.5 million compared to revenue of RM43.4 million and profit before tax of RM1.2 million in the corresponding quarter of the preceding financial year. The revenue increased in the current quarter due to the higher contributions from all ongoing projects. The profit margin increased in tandem with higher revenue in the current quarter.

# Prospects

The Malaysian economy grew by 6.0% in Q2 2026 (Q1 2026: 5.4%), supported by continued domestic demand, sustained household spending, continued investment activities and stronger exports growth led by the E&E sector as well as the rebound in exports of liquefied natural gas (LNG) and non-E&E manufacturing products. Bank Negara Malaysia continues to project Malaysia's GDP growth at 4.0% to 5.0% for 2026. Meanwhile, the construction sector expanded by 6.5% in Q2 2026 (Q1 2026: 7.7%), supported by special trade and non-residential activities.

At the same time, the rapid adoption of artificial intelligence ("AI"), cloud computing and digitalisation continues to drive demand for hyperscale data centres across the region. Malaysia remains well-positioned as a preferred investment destination, supported by ongoing investments in digital infrastructure, power transmission and renewable energy initiatives. This is expected to sustain a healthy pipeline of data centre investments over the medium term.

Against this backdrop, SunCon continues to strengthen its position in the Advanced Technology Facilities ("ATF") segment. During the first half of 2026, the Group secured three new data centre-related projects, including two substation work packages for hyperscale developments. Building on its proven track record, the Group remains actively pursuing new ATF opportunities.

In parallel, the Group continues to pursue in-house projects from Sunway Group, including hospitals, integrated developments, commercial buildings and transit-oriented developments ("TODs"). These projects provide earnings visibility and complement the Group's external order book with a stable base of in-house construction opportunities.

Complementing these growth drivers, the Group remains disciplined and selective in pursuing new project opportunities, prioritising projects with healthy margins and achievable delivery timelines. The Group also continues to evaluate suitable investment opportunities that can generate long-term recurring income and enhance shareholder value.

Collectively, the Group's diversified portfolio across ATF, in-house and public infrastructure projects positions SunCon on a sustainable growth trajectory. Supported by a healthy order book, strong financial position, expanding technical capabilities and proven execution track record, the Group is optimistic on its performance for the financial year ending 31 December 2026.
