### PART B – EXPLANATORY NOTES PERSUANT TO CHAPTER 9, APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD (CONT'D)

#### B2. COMPARISON WITH IMMEDIATE-PRECEDING QUARTER'S RESULTS (CONT'D)

The Group's revenue increased by RM0.88 million or 3.53% to RM25.78 million in the current financial quarter ended 30 June 2025, compared to RM24.90 million in the preceding financial quarter ended 31 March 2025. The increase in revenue was mainly due to the growth in revenue from M&E engineering services during the financial quarter under review.

The Group's GP and PBT decreased by RM0.33 million (8.7%) and RM0.65 million (28.22%) respectively, in the current financial quarter ended 30 June 2025. The quarter-on-quarter decrease in gross profit and profit before tax was mainly due to the accrual of expenses recognised in the current quarter under review.

#### B3. PROSPECTS AND OUTLOOK FOR THE CURRENT FINANCIAL YEAR

In Q2 2025, Malaysia's economy showed resilience, with GDP growth edging up to 4.5%, driven mainly by strong domestic consumption and sustained momentum in the services and construction sectors. This positive environment was further supported by Bank Negara Malaysia's monetary easing measures, including a reduction in the Overnight Policy Rate (OPR) to 2.75%, aimed at boosting consumers' purchasing power and encouraging spending, including the property market.

The construction sector continued to expand at a robust pace, recording double-digit growth of 12.9% during the quarter. Growth—though moderating slightly from Q1—was propelled by strong contributions from special trade activities, non-residential and residential building works, with private sector projects and infrastructure investments serving as the primary catalysts.

The Mechanical and Electrical (M&E) engineering industry, in which the Group operates, shows a promising outlook. It is projected to grow from RM8.5 billion in 2024 to RM10.9 billion in 2026. This growth is supported by robust activity in the residential and commercial property markets, increased foreign and domestic investment driven by national initiatives like the New Industrial Master Plan, and a rising demand for intelligent building solutions.

While external headwinds, such as the potential impact of U.S. tariffs on input costs and project timelines, present challenges, the Group is well-positioned to navigate this landscape, our group also closely monitor the raw material price movement and minimize its impact to our performance. To mitigate risks from cost fluctuations and potential supply chain disruptions, the management is proactively exploring supplier diversification and bulk procurement strategies. Our strategic plan to utilise the IPO proceeds to expand manufacturing and warehousing capacity will further enhance these efforts, allowing for better cost control, the ability to hedge against price increases, and improved project cost-efficiency.
